JOHNSTOWN, PENNSYLVANIA

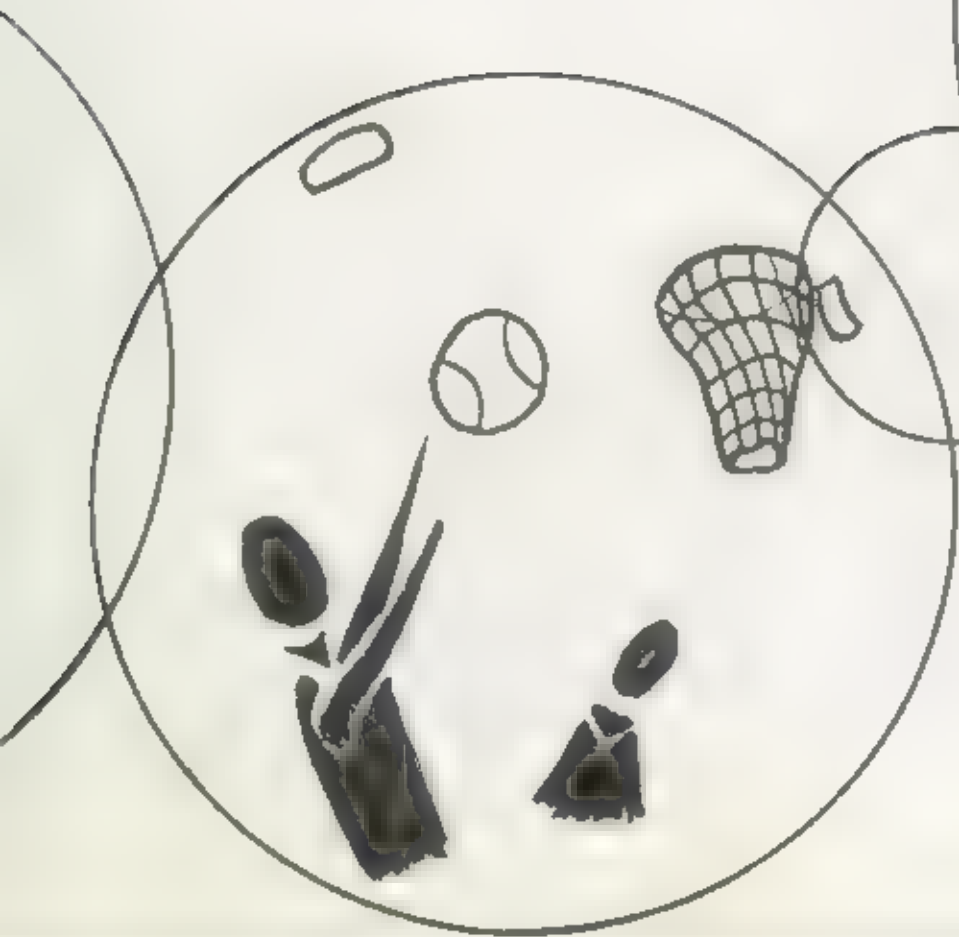

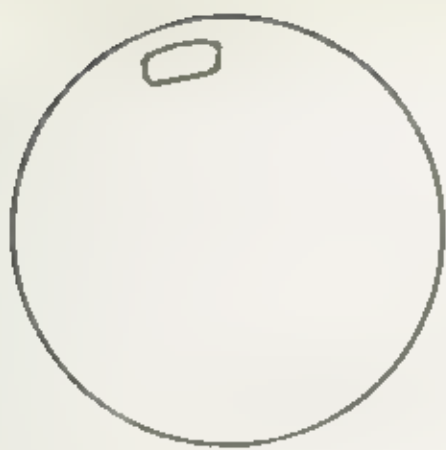

JOHNSTOWN HIGH SCHOOL

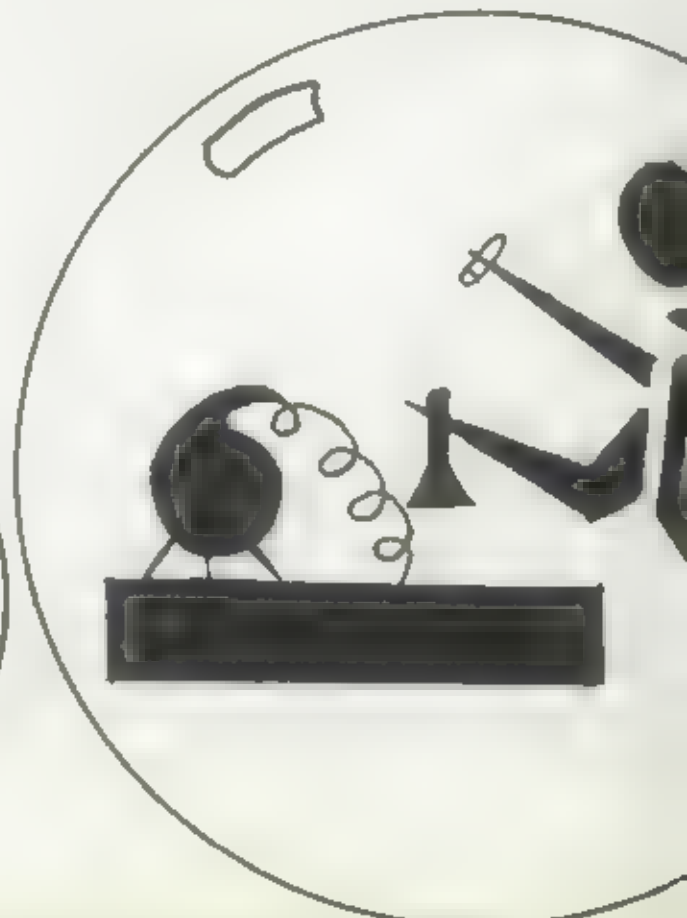

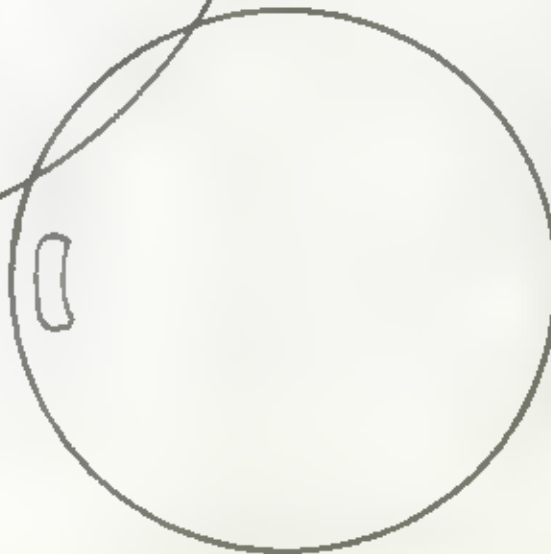

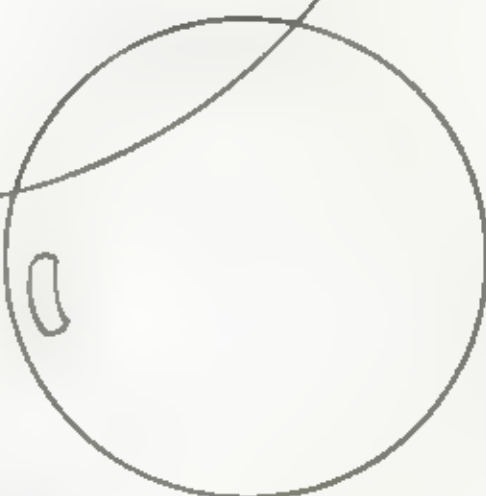

WHERE THE  
ACTION

Is!

Was there ever a day without action at JHS? Whether in the classroom or on the football field, in the Pep Club or in the gym, action was there. We will never forget—

Activities we loved to attend,

Christmas vacation we wished would never end,

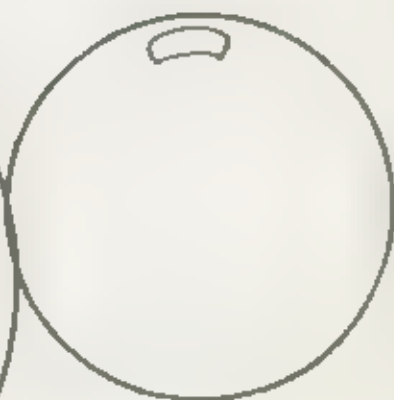

Sporting events where we cheered on the team,

Interesting classes where we got on the beam,

Old friends we'll always remember,

New memories that will live on forever.

These six letters spell action with a capital A, the keynote at JHS.

MR. ALBERT RUBIS  
PRINCIPAL OF JOHNSTOWN HIGH SCHOOL

ADMINISTRATION

Mrs. Kathryn Roberts—Head Clerk

Miss Carol Barczak—Clerk

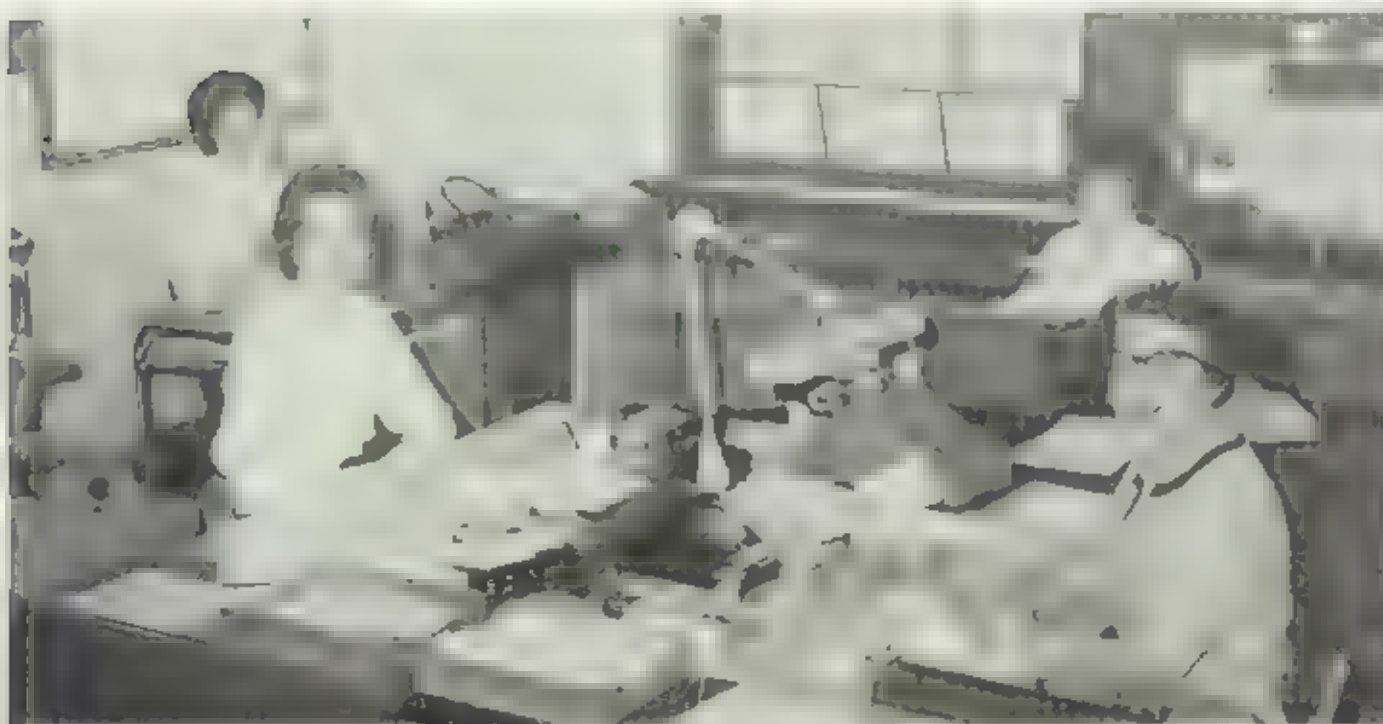

Miss Loretta Stumpo—Switchboard Operator

Mrs. Nancy Mitchell—Assistant Clerk

Four fine ladies get down to work

## 422, Where the Action Begins

Action begins in 422! It is here where we learn not to be tardy, where class programs for each year are set up, and where the students may find the answers to many of their problems. Here, too, daily attendance is reported and recorded, and everyday school business carried on.

The action in 422 is under the supervision of Mr. Donald Irwin and Dr. John Melleky, the assistant principals

Miss Barbara Chirillo, assistant clerk in 422

Miss Margaret Stull, clerk in 422

Assistant Principals, Dr. John G. Melleky and Mr. Donald B. Irwin

Messrs. Charles E. Boyer and  
James R. Koontz, administrative  
assistant and supervisor of  
secondary education

Miss Katie Huebner—Clerk in guidance office

Mrs. Sara Jane Torquato—Girls' Guidance Counselor

Mr. Joseph Datko, Boys' Guidance Counselor,  
counsels Leo Zahurak.

# Academic Classes

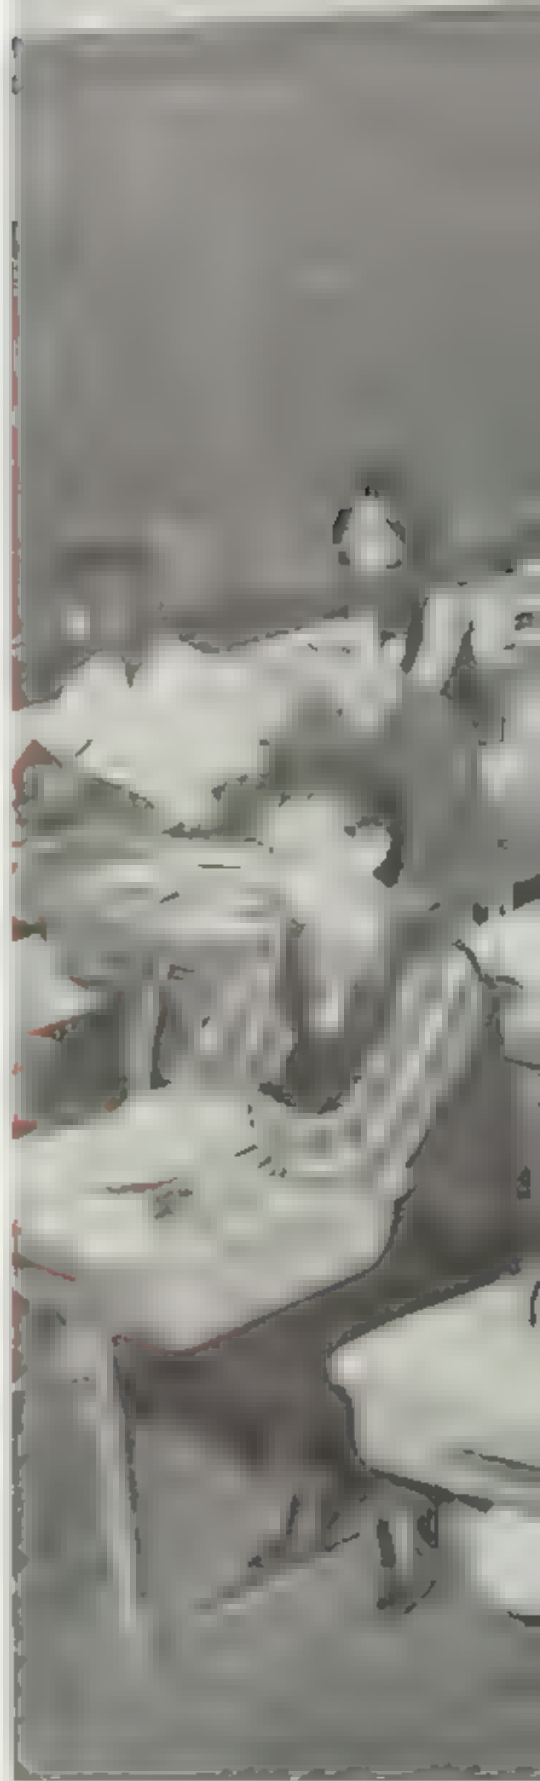

## *Linguistics, a New Approach*

Every English student should have a clear comprehension of structural linguistics as well as the basic fundamentals of grammar. Learning to understand our language and knowing its history is fast becoming a vital facet in the study of English.

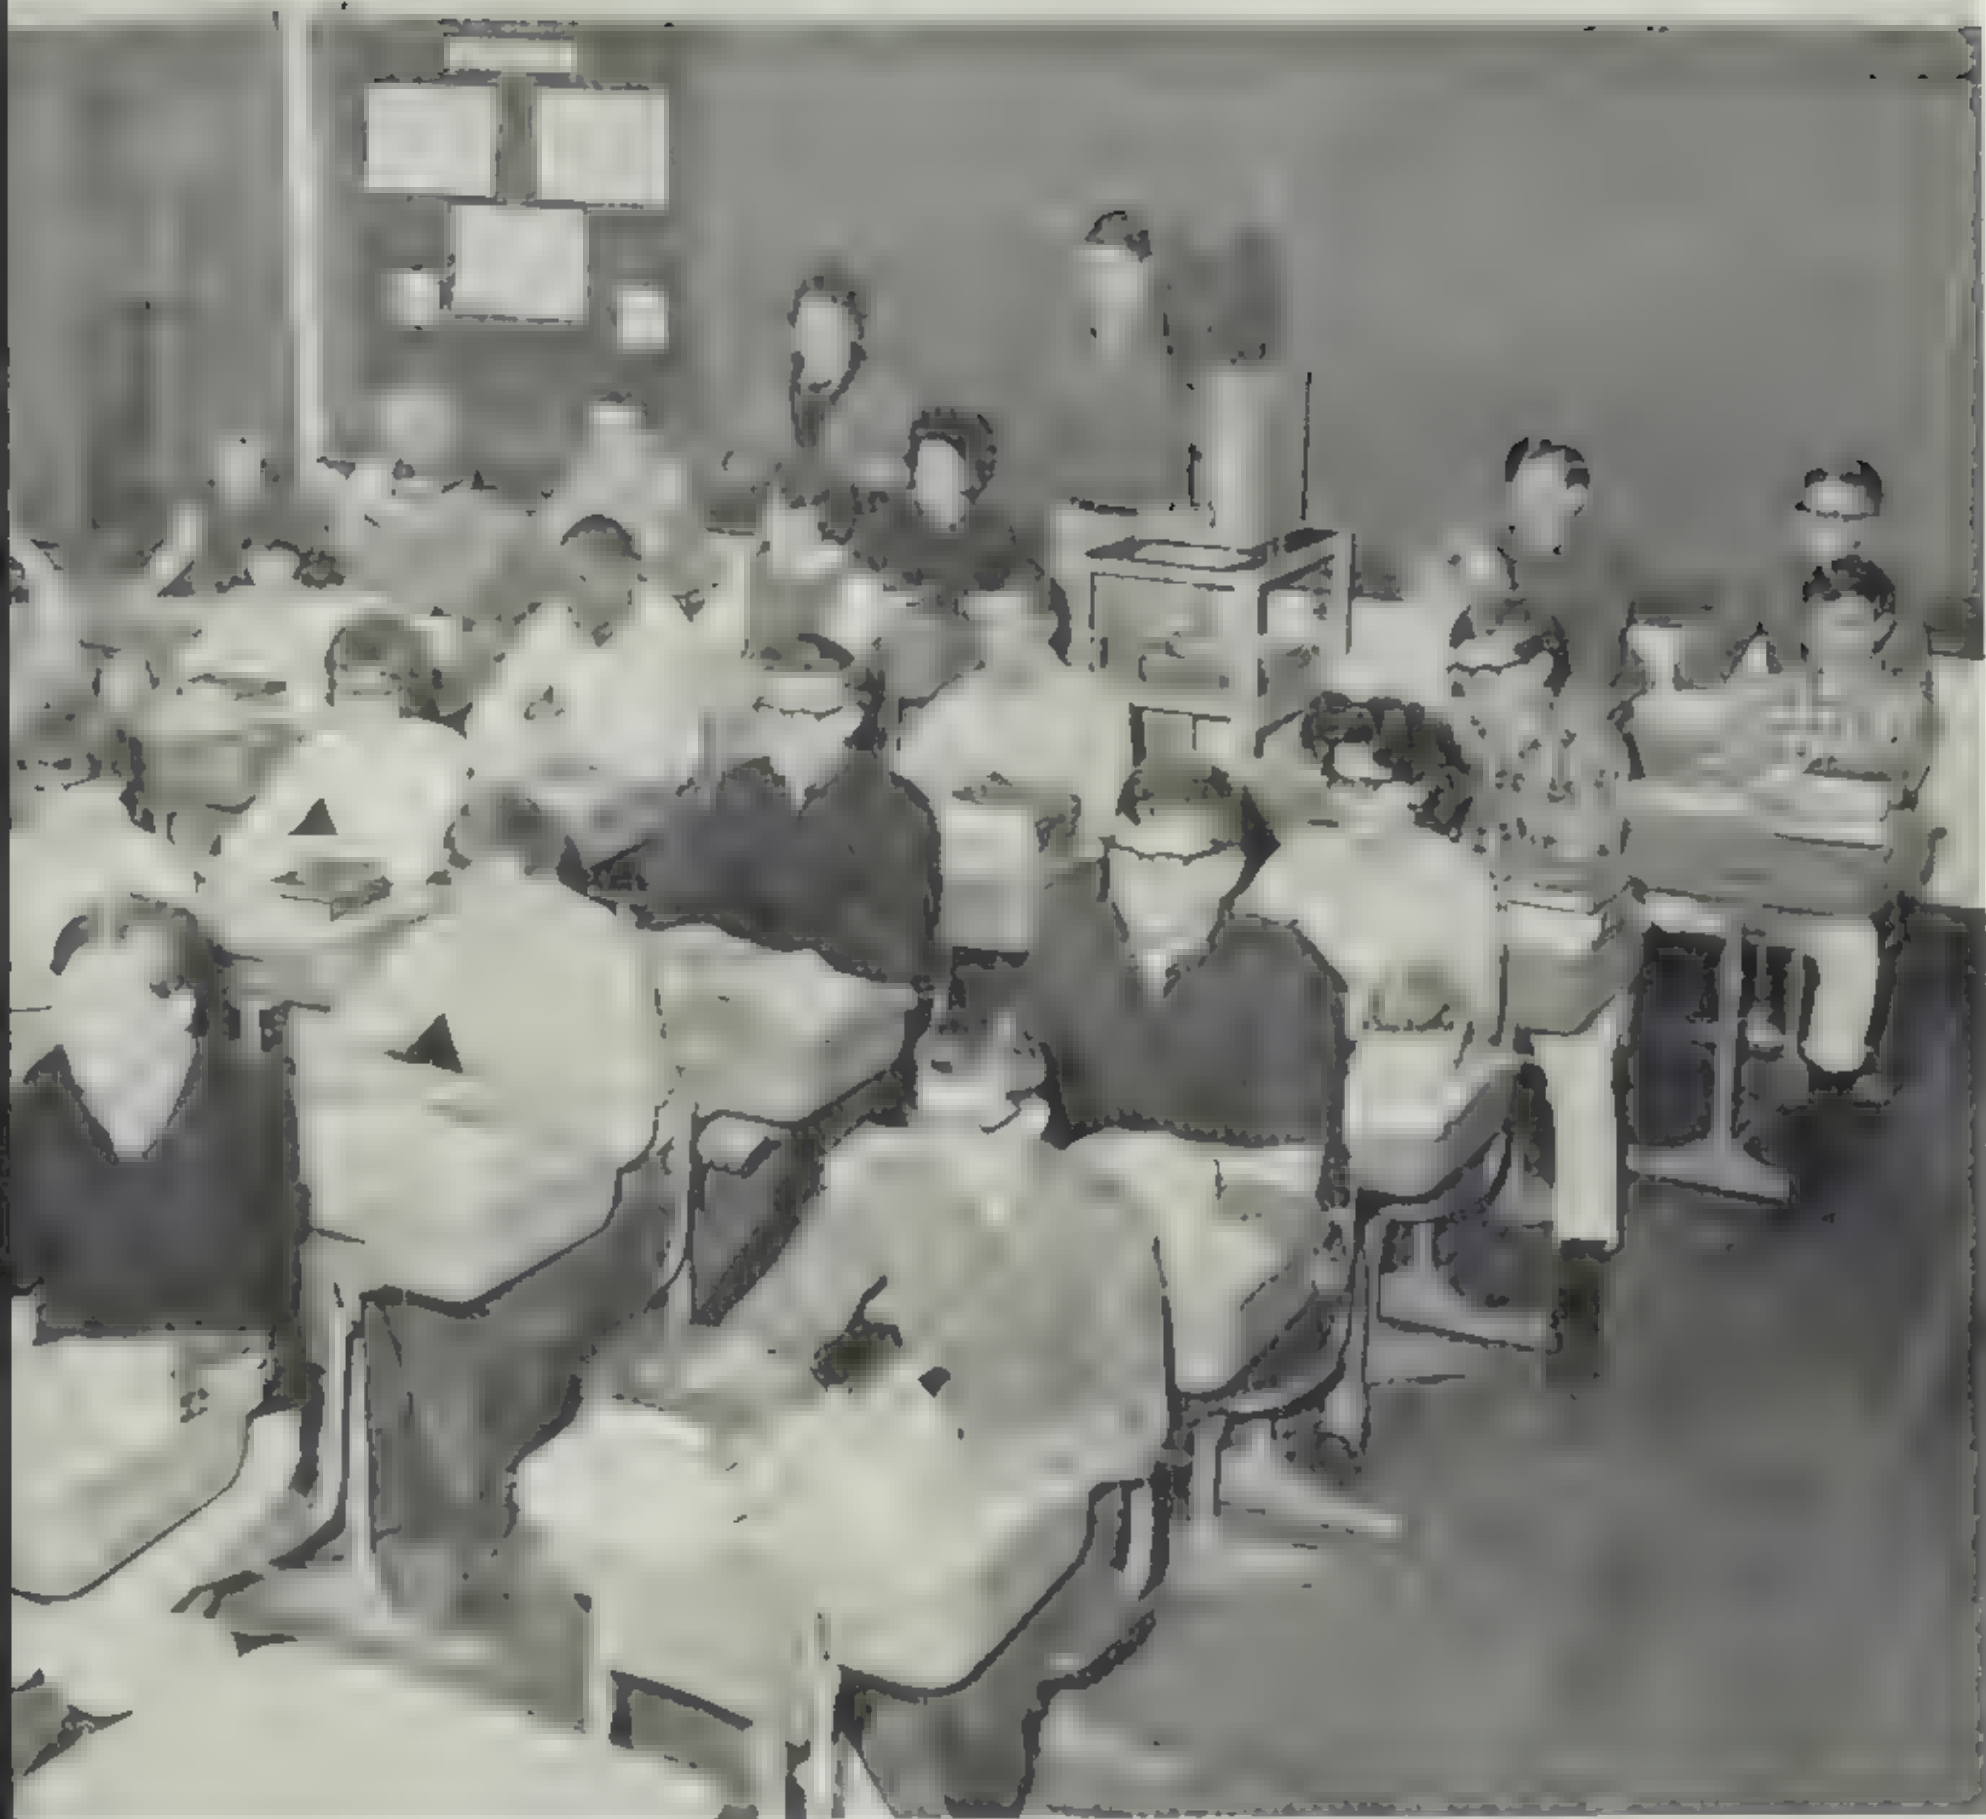

Public speaking and written composition are also two essential spokes in the great wheel of English experience. Students must be able to express themselves freely and to develop the necessary skill needed to obtain writing perfection.

Literature prepares the student to live a better life. In studying the classics, students are also given an opportunity to compare the styles and theories of many great writers, and to interpret their various philosophies. Information concerning other countries can be obtained from the required book reports.

Then, too, high school students are called upon to express themselves in essay form on tests. Practice in writing, therefore, is of unlimited value. In addition, there are various school and community contests that enable the student to test his ability as a creative writer.

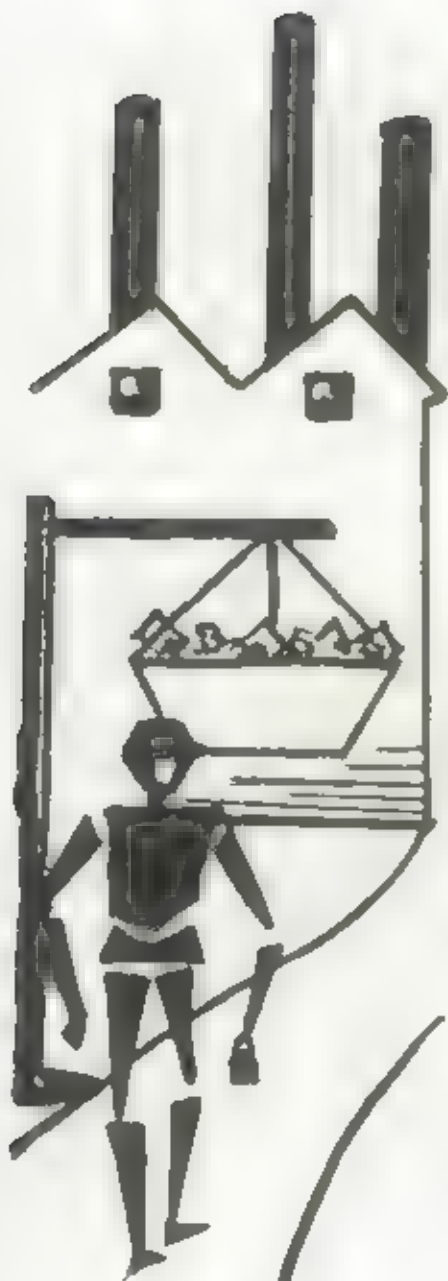

Miss Olive Katter, chairman of the  
English Department, shows film to class

Learning maketh a ready man.

88.

## *History Department: Pipeline to the Past*

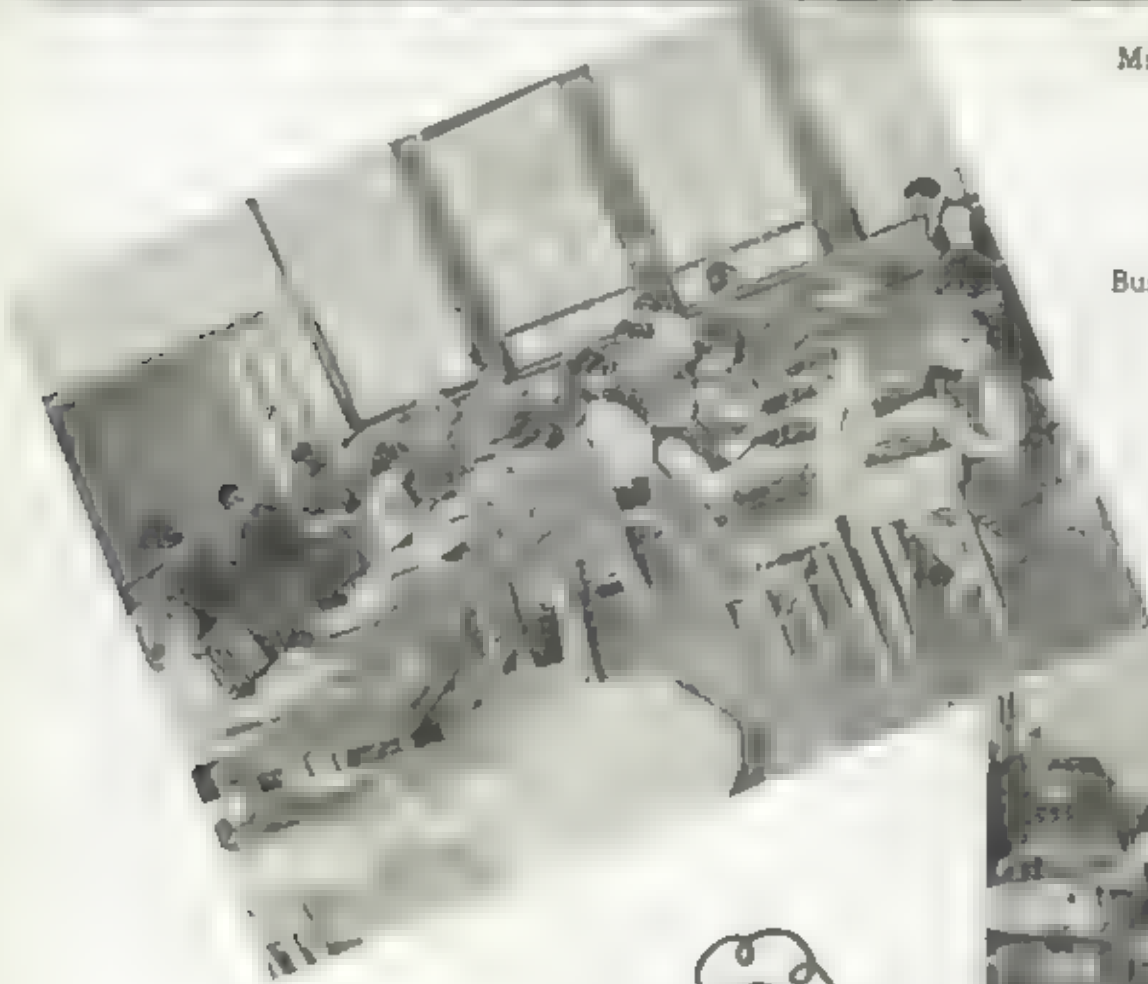

The evaluation and study of civilization from the dawn of history to the development of our great American democracy is the main objective of our History Department. Through courses in American history, ancient history, English history, economics, and P.O.D., students are given a diverse background in the social studies. The required American history course traces the growth of our nation and the effect of the past on the American way of life. Ancient history dwells primarily with the study of the past from prehistoric times to the Roman Empire. This study of bygone civilizations aims to provide an effective means of understanding modern problems. English history stresses the importance of our heritage from the British. The problems of democracy course acquaints students with the mechanics of government and the political, social, and economic problems faced by our government, with the hope that students will become more responsible citizens as a result of this study. The economics course offers business education students valuable information on the economic structure of our country. Our History Department does provide a pipeline which connects the past with the future.

Miss Kathryn Long supervises a typing class.

Business machines class means business

Looks interesting—working with dictaphones

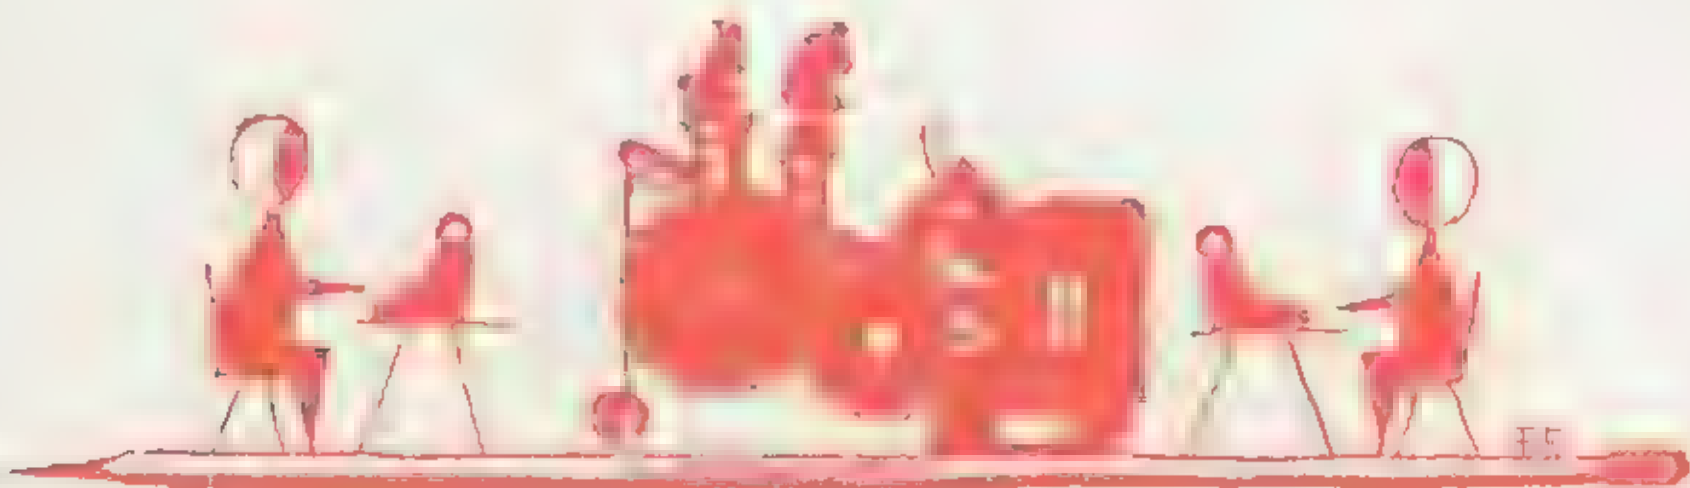

Students get busy at bookkeeping

## *Getting Down to Business*

The JHS Business Education Department offers its many students more than just the standard typing, shorthand, and bookkeeping. The students also have the opportunity of learning to operate business machines as well as getting the know-how of selling, business math, business law, and commercial geography.

Each year the best students in the field of typing and shorthand are honored and receive mention in the honor assembly at the end of the year.

The Business Department chooses worthy students for part-time jobs and aids capable students in finding summer jobs.

Library gives student great opportunity for learning

Mrs. Rachel Georg and Miss Twila Wassum, librarians

## *The Library-- Action in Disguise*

Was there action in the library? Yes, in this deceptively quiet domain, rockets shot us to other worlds, ships rushed us to other continents, and in these time machines we call books, we were hurled into the past, into the exciting adventures of yesterday.

The students at JHS had a cascade of books from which to choose. From this stream of never-ending knowledge we drank from the wisdom of many authors and their noteworthy books—*Lord Jim*, *Pride and Prejudice*, *Profiles in Courage* and many others. The dictionaries, encyclopedias, almanacs, and magazines aided us in our every day assignments.

Under the guidance of Mrs. Rachel Georg and Miss Twila Wassum, librarians, over 10,000 books were in circulation.

As another class graduates, let us not forget to acknowledge the part that the library plays in our school life. The big room on the third floor has furnished us with the hammer, the nails, and the wood with which to build our future.

## Arts-A-Go-Go?

Art spells action in each of its three letters. This year we felt some real masterpieces were displayed outside office 211. Many of the artists possess talent as displayed in oils, water colors, and pastels. Among the sketches, brushes, and paints there was always action in 410. Mrs. Josephine Quigley is art instructor.

Miss Carol James of the Dramatics Department also saw that there was never a dull moment. Whether plays were being read, or students performing or studying the history of dramatics, the actors and actresses were always on the move.

The Music Department was in full swing this year again under the direction of Mr. William Tepper and Mr. Carl Miller. Our "terrific" marching Trojans, and they were terrific, highlighted each football game, while the chorus and string ensemble were not to be outdone by their performances.

The three departments comprising the Fine Arts Department really went into action this year

"If music be the food of love, play on."

'Act well, your part there at, honor lies

Art, loved by all

# Aeronautics Spell Action

At JHS, students have a diversified choice of electives. Many choose Mr. Frank Weaver's class in aeronautics. Mr. Weaver, a commercial pilot as well as an instructor, gives the added flavor of experience to his lessons.

But all is not play! The problems presented by navigation, wind direction, and weather are all considered in the fundamentals of flying that these boys encounter as everyday classwork. There is more than just learning "up from down" involved in all the problems and discussions that the members of the aeronautics class get into.

Aviation has moved from a novelty course to a science and is one of the most important fields in the world today. The need for good pilots, navigators, and designers of airplanes is so great that opportunity is literally "kicking down the door" to offer the trained personnel a substantial job. The aeronautics class of JHS realizes this and is preparing its students for the opportunity before them.

Mr. Frank Weaver with aeronautics class

Three able boys and a million-dollar smile from Mark Johnson, junior.

# *Moving With Mathematics*

Mathematics is used in all walks of life. It is important in the lives of everyone—housewives, scientists, professional men and women, secretaries, and athletes. Each of these persons may use math in a different manner, but a knowledge of this subject is a must.

The JHS Mathematics Department offers students the math training they may need in their careers. Some courses open to students are business math, algebra, geometry, trigonometry, and everyday math.

This year advanced students again were given the opportunity to enroll in the SMSG mathematics course. These classes were conducted by Miss Florence Warfel.

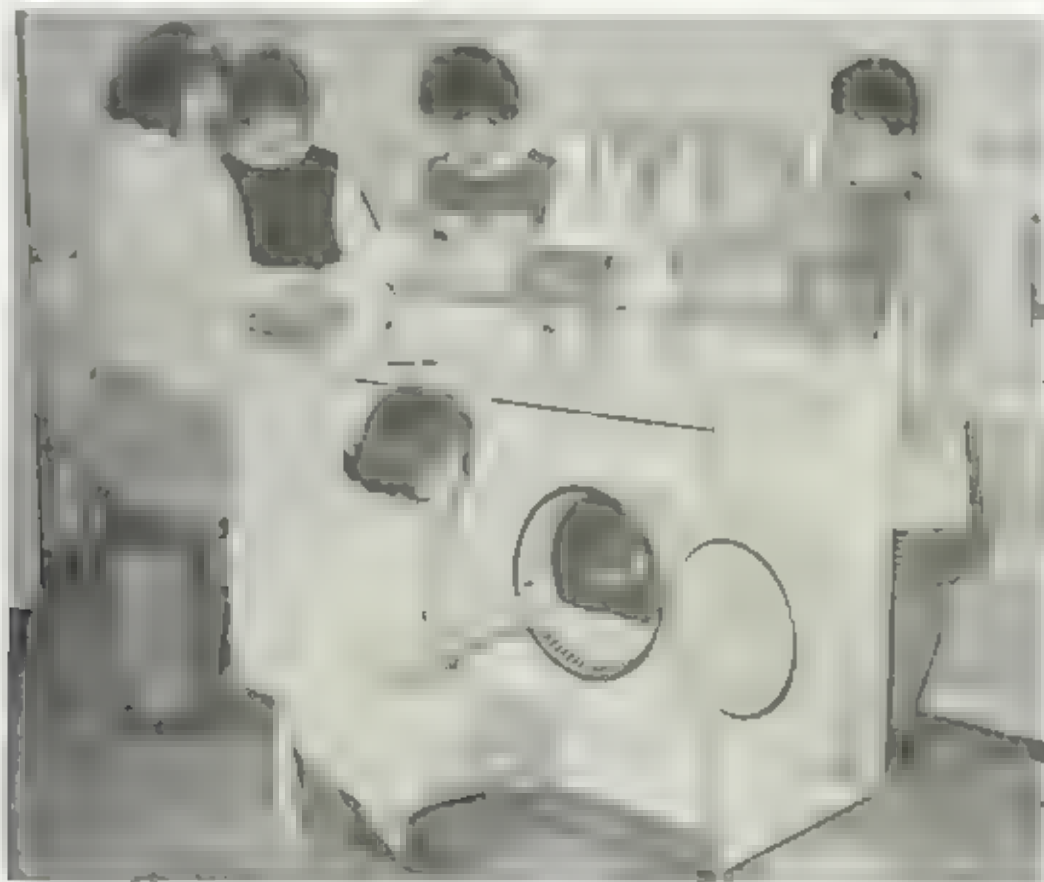

Miss Florence Warfel's Honor Class.

The way to a man's heart

Cleanliness is next to Godliness.

To be a good homemaker is an achievement for any girl

## Action In Aprons

The Home Economics Department was the scene of continuous experimentation and action this past year. Among the clatter of pots and pans, and the admiring exclamations of oohs and aahs, the girls could be seen in the act of creative cooking or practicing the latest in laundry methods.

The instructor, Mrs. Jane Manners, supervised these operations and taught hundreds of helpful hints for the future homemakers. Included in the study program were proper child care, the importance of nutrition, food preservation, family relations, and the art of baking.

The girls were enrolled in either Homemaking I or II classes, five days a week, or one course that was offered twice weekly. Also a nurses homemaking class was scheduled for those senior girls planning a nursing career. Here valuable information was provided in the way of diet and planned menus

Accuracy in marking a pattern is important.

Making their Easter outfits.

## *Sewing Up A Bright Future*

Measuring tape, material, pins, needles and thread—girls became well acquainted with these essentials of sewing this past year. Mrs. Gloria Fenik also taught the girls the use and care of the sewing machine, plus tips on selection and care of fabrics.

In addition to the one required project each six weeks, the girls produced a wide variety of suits, jumpers, and dresses throughout the year. They also aided other departments by mending window blinds and were always prepared to rescue a student in distress.

A special highlight of this year's work was the Sewing Department's display at the Science Fair. This proved to be very popular with the visitors to the Fair.

Here's the way to learn your Spanish.

German class in full swing

Miss Ruth Hetrick and Latin Class.

Miss Lelia Calderwood and French Class.

## *Languages--Links to Other Lands*

Would you like to visit Spain, France, Germany, or ancient Rome? The JHS Language Department forms the links in the chain of communications to other lands. Five capable guides and their points of location are: Mr Jose Gonzales del Valle in 302, Miss Carol Furnary in 409; Miss Lelia Calderwood in 304; Mrs. Ingeborg Calderwood in 303, and Miss Ruth Hetrick in 305. Through their helpful guidance, the students of JHS become world travelers.

In these active and interesting classes and also in the language laboratory, the students learn the value of communication with our European friends. Students learn the facts about the customs, habits, apparel, and manner of speaking in various countries, as well as the basic structure of the languages. Activities within the class such as singing, listening to recordings, or acting out small dramatic scenes, help to acquaint the student thoroughly with the language he or she is studying.

A student who has studied languages at JHS is a fortunate one. When he walks out into the world, he will forever hold his link in the vast chain of communication.

## Science Sixty-Six

Nineteen sixty-six was quite a year of action for the science classes at JHS. The structure of the cell, the electron's race around the nucleus of the atom, and the mystery of the world around us, were considered, explored, and discussed by our science students.

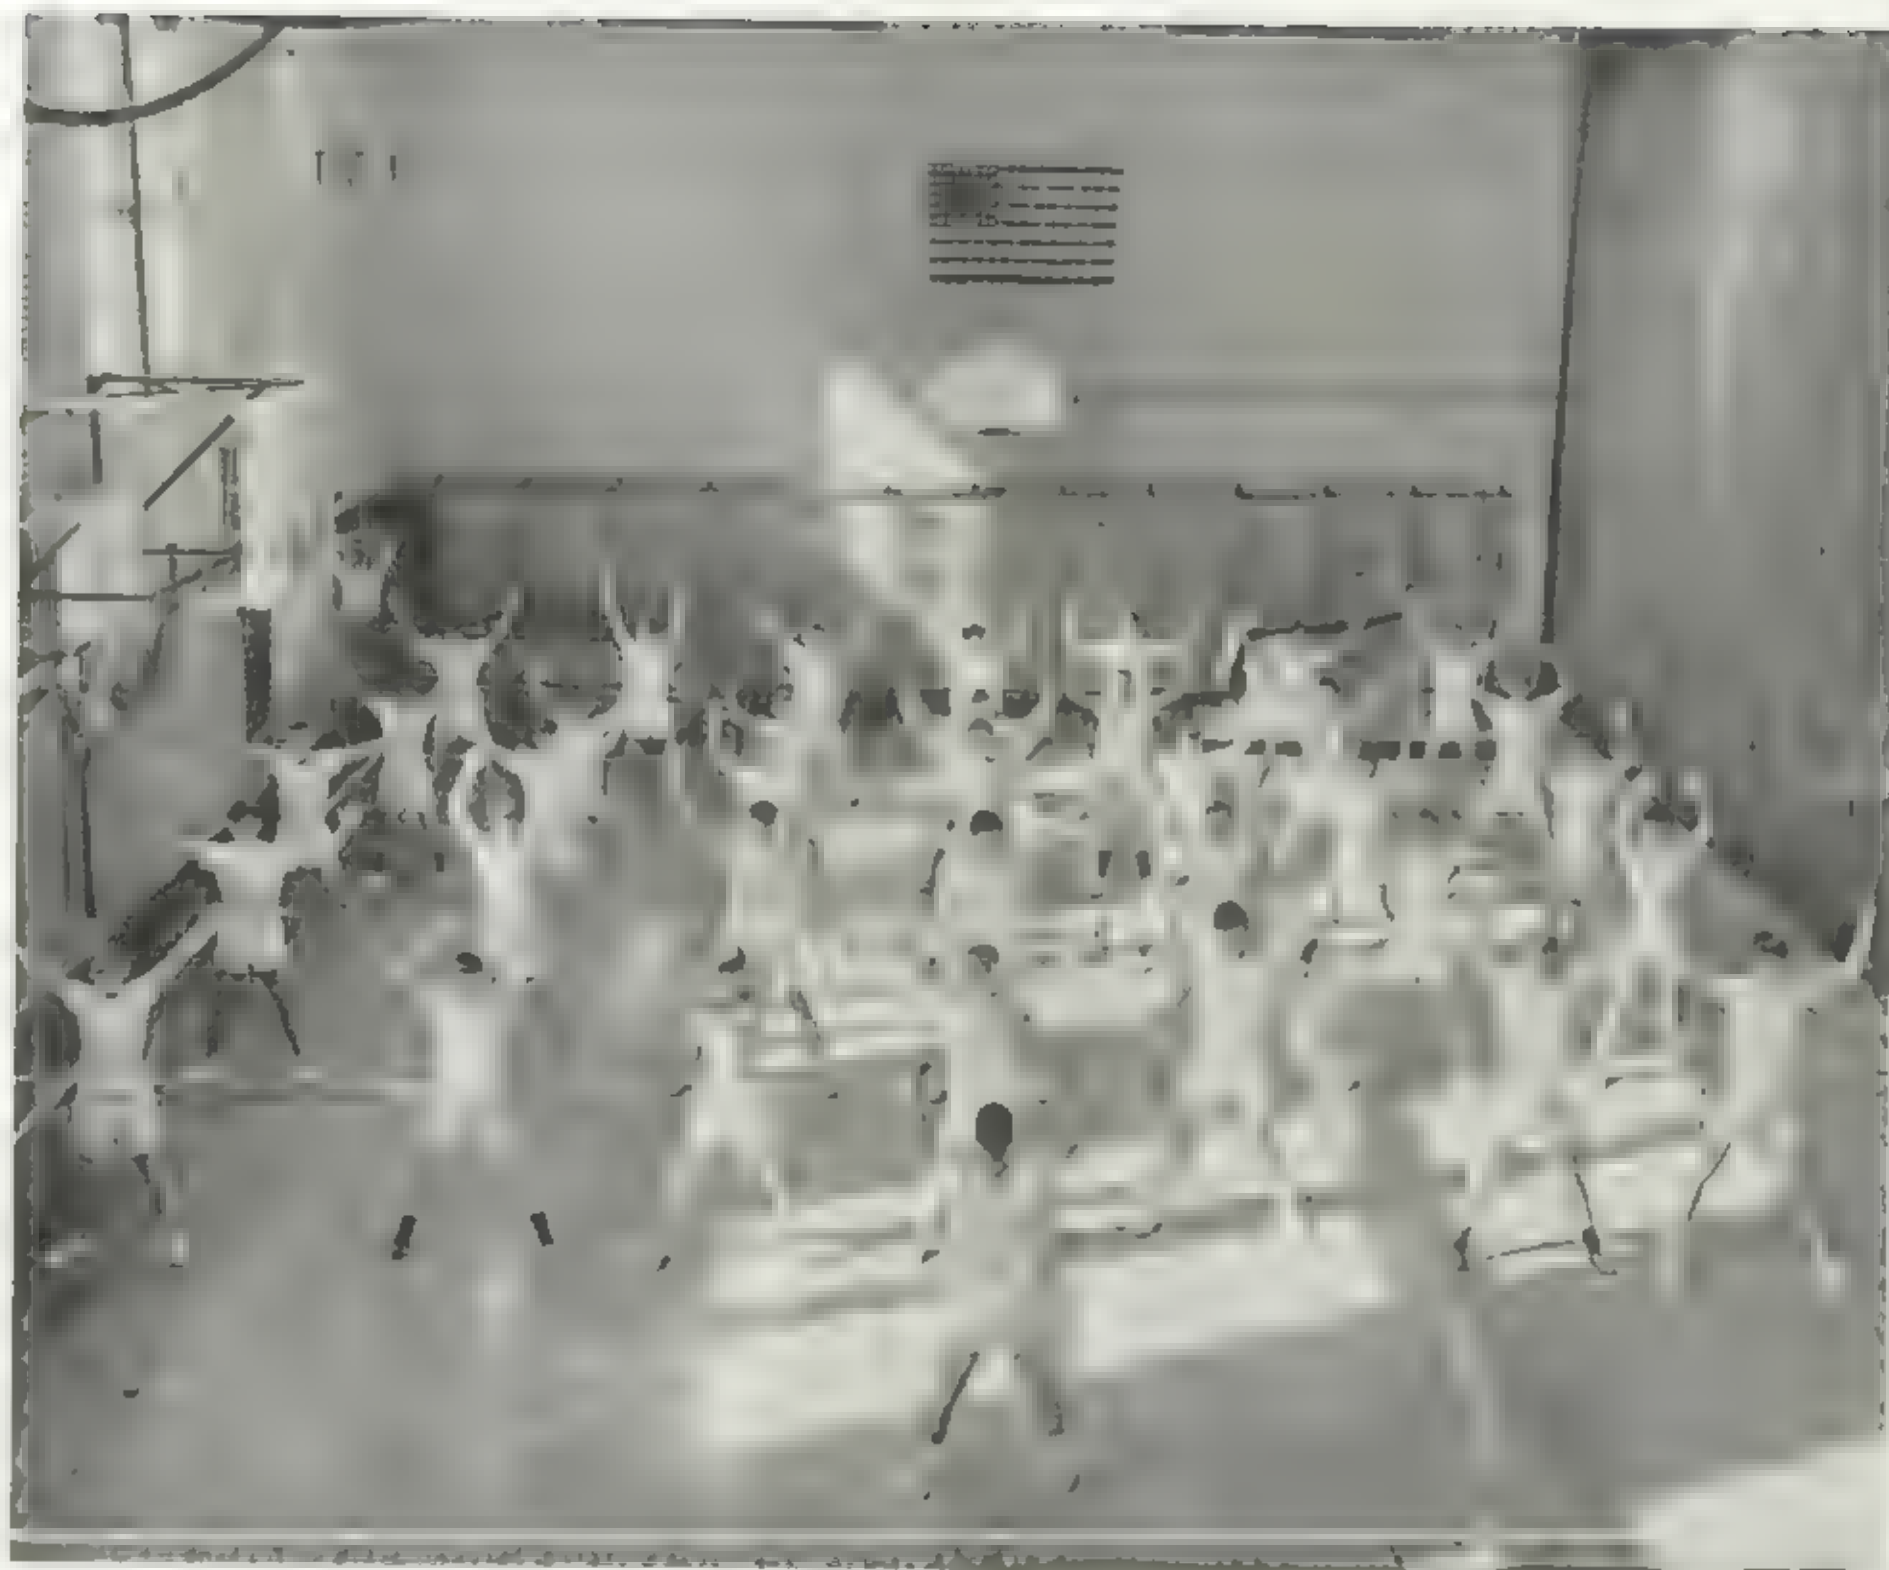

Because of the fine lab facilities open to students of science, the otherwise hard-to-understand lessons were easier. This was because of the practical application in the form of experiments and demonstrations that was given to these lessons. However, the laboratory period was only one of the exciting facets in our science program.

Every year the Science Department participates in the Science Fair held locally at the War Memorial. The students of JHS have from twenty to thirty projects annually. These form the brunt of the fair's displays.

We are the leaders of tomorrow, and with us lies the future of the world. The Science Department realizes this, and are putting forth every effort to train scientists, doctors, and technicians who will be leaders in tomorrow's great world.

Chemistry laboratory in action.

Boys' physical education class in action.

## *A Sound Mind in a Sound Body*

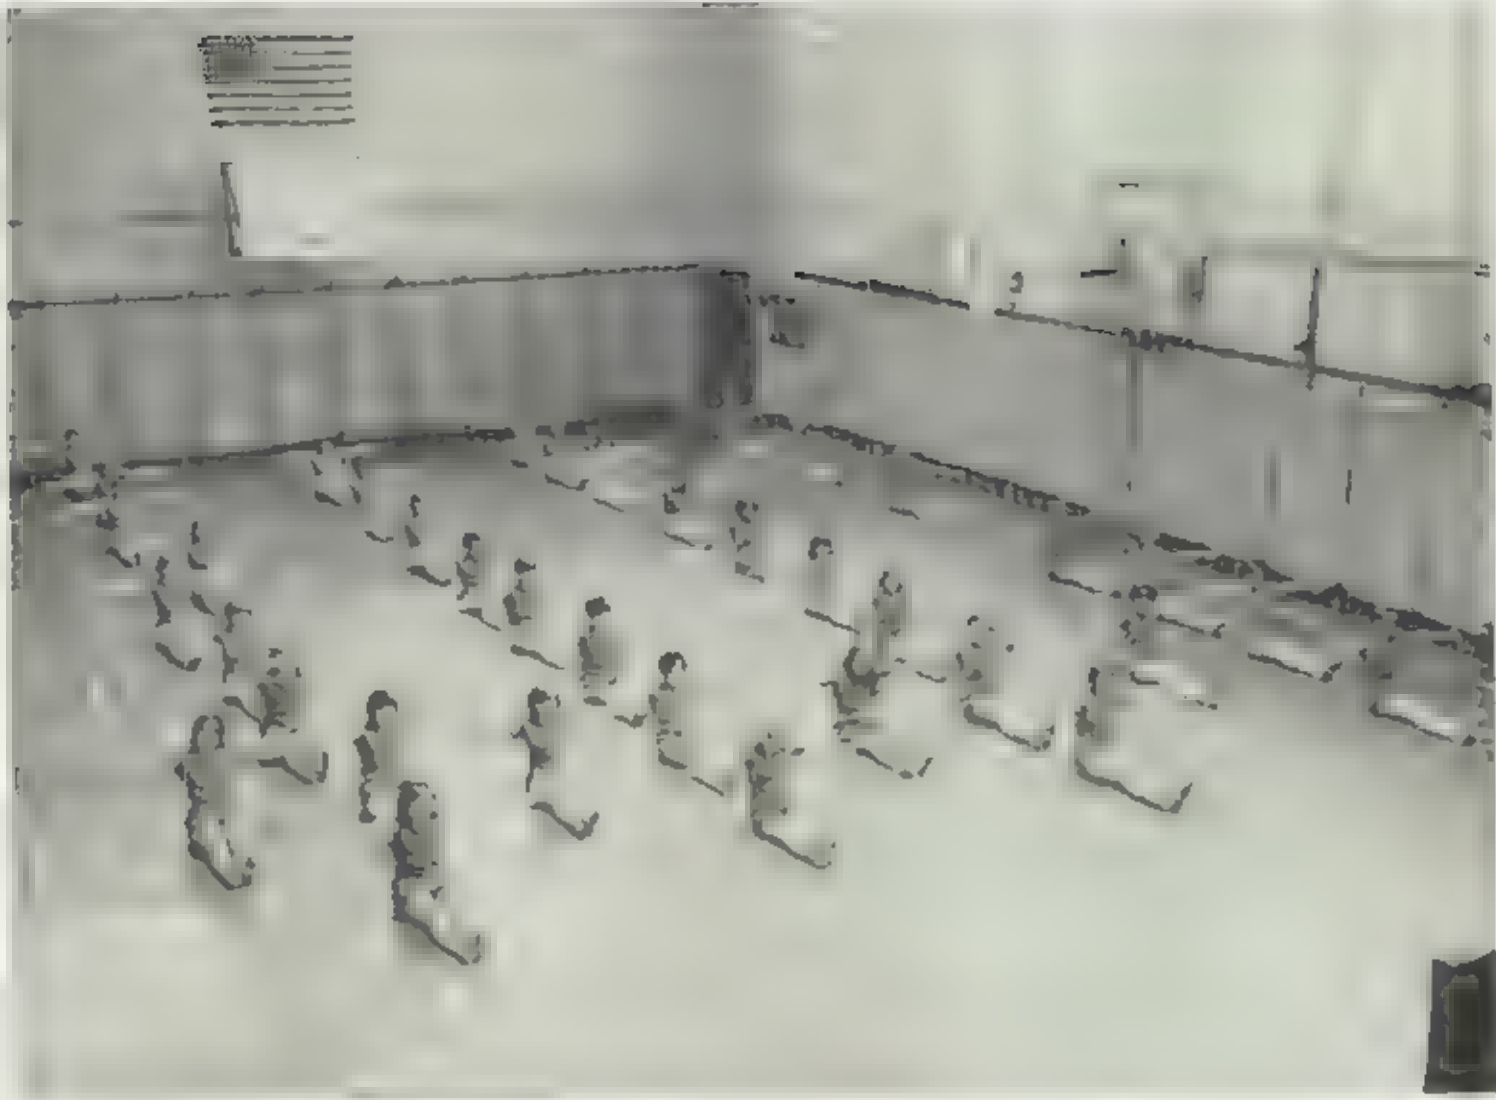

"Physical education when well taught can contribute more to the goals of general education than any other school subject," says Mr James Devorick, instructor

The physical education program established at JHS relates itself to an ideal established in Greece some 5000 years ago—"A sound mind in a sound body."

During the first twelve weeks of school general conditioning is stressed. However, the next twenty-four weeks are made up of activities stressing strength, endurance, agility, flexibility, poise, posture, motor ability, and general dexterity.

The general activities utilized in our physical education program range from calisthenics to wrestling to gymnastics and tumbling, to handball and paddle ball, to weight lifting down through judo. To take part in these activities each student must take strength-index tests to determine his capacity and needs.

It is the hope of our instructor that each student will continue his physical education the rest of his adult life.

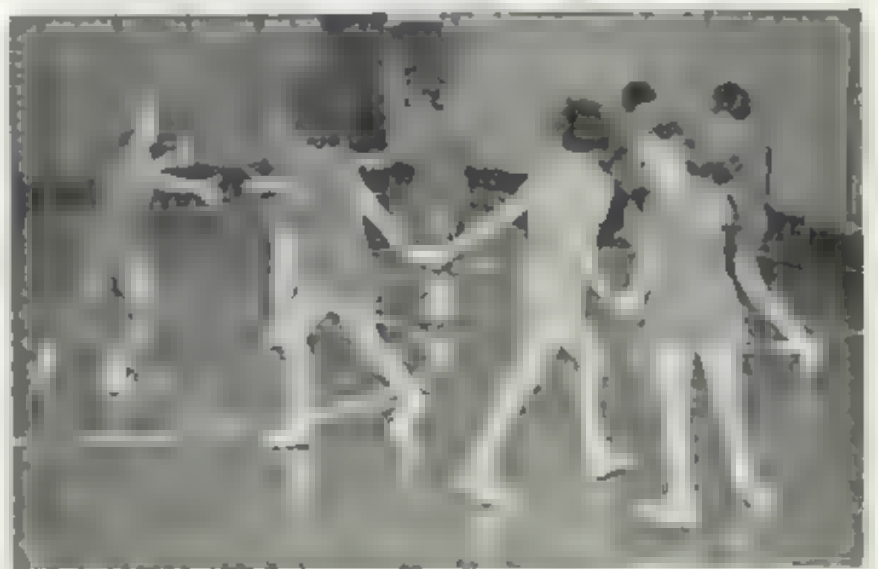

## *Physical Fitness On the Go!*

If one has ever observed a girls' gym class while in session he has probably realized that the JHS girls are physically fit. Miss Lois Miller and Miss Carolyn Tilley saw to this with a variety of exercises, volley ball, ping pong, and modern dancing, one of the highlights of the year. Each girl gave her interpretation of a musical selection using some of the movements demonstrated by the instructors. The dances gave grace and poise to the girls.

Another activity was touch-football. This sport was played by all of the girls' gym classes. It gave to all a better understanding of the game, as regular football rules were followed.

Go to the girls' gym—where the action is!

Girls' physical education classes lumber up.  
Good old-fashioned square dancing.

# Classes Technical

## *An Echo of Progress*

The Vocational Department provides many pupils with valuable training that will help them in the future. This department is comprised of many shops. They are the auto body, auto mechanics, cabinetmaking, carpentry, drafting, electric, machine, printing, and sheet metal shops. Each shop becomes an important part of the educational system. Here boys can learn a trade of their choice, and become independent in later years.

There was plenty of action in the Vocational Department this year with everything going full speed ahead. The presses were rolling, pencils going, machines sounding, and hammers pounding. All of this left an echo of progress for JHS shop boys.

## *Printers on the Go-Go*

Speed was the head word in our Print Shop this year. Although operating quickly, the boys were also accurate and efficient. Considering the Shop's many jobs, the Print Shop always turned out excellent results.

Under the direction of Mr. Kenneth Arice and Mr. Samuel Marek, the young printers produced signs, booklets, tickets, and most everything seen in print around JHS. They also had the difficult task of printing the six issues of *The Centralizer*.

The students were taught how to work with their minds and hands so that the Shop's machines could be put to work. With the training our Print Shop boys have had, they will be strong competitors in the printing world.

## *Carpenters of Tomorrow*

The cabinetmaking and carpentry classes are an important part of Johnstown High School. Here the boys are taught a trade, and a great deal of furniture for the various schools is made there.

The boys make desks, gym cabinets, office furniture, easels, library shelves, blackboard frames, wall plaques, and also many other useful items.

These future carpenters spend half of their school day in shop. They learn what all the tools are for and how to operate the different machines. They also take difficult standardized woodworking tests. Mr. Robert Anderson, the shop teacher, teaches them a certain amount of mathematics which will be useful in carpentry.

With the training these boys receive in cabinetmaking and carpentry, they are ready, as carpenters, cabinet makers, and construction workers—to go out into the world and make a living.

## *Mrs. Brown, You've Got a Lovely Auto!*

What mysteries lie in the engine of that old Ford? Why does this Chevy engine always stall? How fast can she go? These are questions that boys in Johnstown High School's Auto Mechanics Shop were eager to have answered. A skilled instructor helped them find their answers.

Under the direction of Mr. John Oleska, the students of Auto Mechanics learned how to repair and overhaul engines. They were given a general background in the operation of the car's running parts.

The purpose of the course was to offer the training necessary for those interested in working in shops or garages as repairmen. Who knows? . . . someday one of the boys may be fixing your car!

## *Tomorrow's Industrial Artists*

Under Mr Ross J Weaver's direction, the boys enrolled in the drafting class can be certain of learning to think for themselves. This is Mr Weaver's way of teaching these young men the "language of industry."

In the drafting class, the students learn the basic elements of orthographic, oblique, and perspective drawing.

With this knowledge, "tomorrow's engineers" will have a better chance to make their hopes become realities.

They learn to Think for Themselves

## *Kite + Storm + Key = Electricity*

Since the days of "old Ben" himself, man's mind has probed the wonders of electricity. Young ideas guided by age-old facts have been the basis for our school's Electric Shop.

Instructed by Mr. George Mandichak, the Electric Shop pupils were taught to do work in the fields of electricity of the nature that would prepare them for future work. The young electricians were taught to understand the mechanism of appliances. When they understood their work, Mr. Mandichak taught them how to detect what was wrong with the device. The final step was learning how to fix the broken appliances.

The Electric Shop students are the repairmen of tomorrow. In their hands rests the future of electrical repairs and perhaps discoveries in electrical science.

## *The Sound of Work*

The Machine Shop, directed by Mr. Walter Reighard, was really packed with action this year. This shop, with its humming machines, always told of work being done. These boys are trained to measure accurately, to lay out their work, to set up jobs in the machine, make sketches, and read blueprints.

Future jobs, stemming from this shop, are machinists, tool and die makers, automotive machinists, engine and diesel repairmen, and general repairmen. The boys who are educated in this shop are mechanically and mathematically able to do future jobs.

Let's give credit and thanks to all of our Machine Shop boys. The Machine Shop knows how to combine fun, learning, and working.

## *Away With Dents and Scratches*

Whether a car is scratched or dented, the boys in Auto Body Shop are taught how to make the necessary repairs. Working at Cochran, under the direction of Mr. Frank Krall, students worked to repair old cars to look like new.

They are taught how to paint, to weld, and to make other auto repairs. Using demonstrations and experiments, Mr. Krall offers an enlightening course for the boys. The use of illustrations and audio-visual aids are a helpful part of the lessons. These and other practices hold interest.

In the future, when boys look for work, they will have the ability to work in shops with auto body equipment. Our Auto Body graduates may be the repairmen who fix dents and scratches in 1976.

## *Metal Workers of Tomorrow*

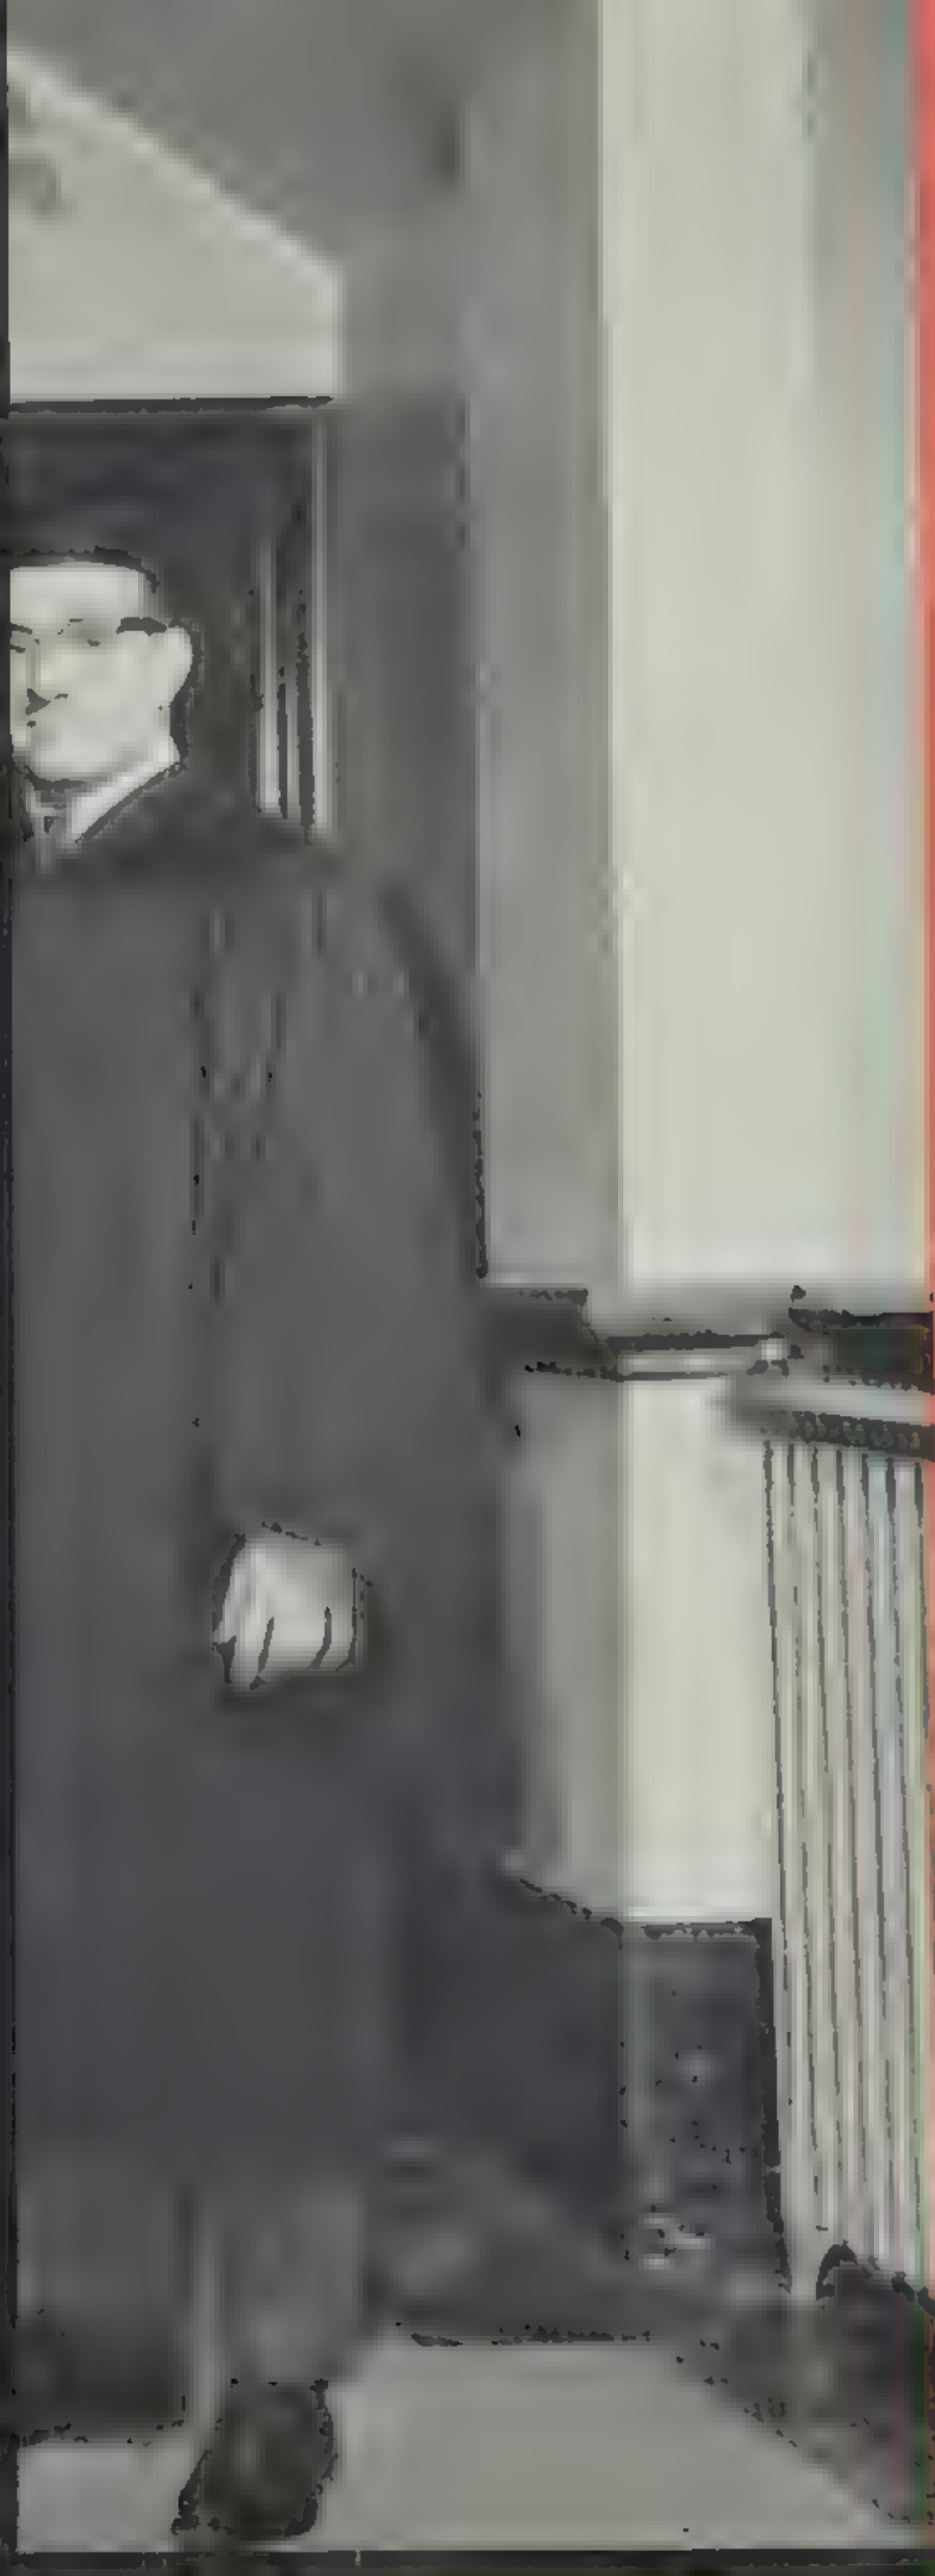

The Sheet Metal Shop, under the direction of Mr Bruce Alter, is designed to prepare the vocational students for an apprenticeship in a technical school of their choice

Through the use of machines, tools, and textbooks, Mr Alter hopes to teach his students the basic principles of shearing, riveting, soldering, filing, welding grinding, and finishing

Upon completing this course, each student can step into the industrial world with complete confidence.

## *Presidents of Johnstown High School Clubs*

Seated (left to right) — Jack Tomb, M. Alpha Theta; Pat Tomkowski, Girls Pep Club; Gretchen Hilbrecht, Para-  
Medical Careers Club; Barbara Frederick, Ushers Club; Mary Lou Mihalic, Junior Y-Teens; Rosemary Coyle,  
French Club; Larry Ramirez, Student Council.  
Standing (left to right) — Jerry Cobough, Boys Pep Club; Tim McClain, Future Teachers of America; Dennis  
McGough, Science Club; Alex Dubransky, Engineers Club; Guy Hildebrand, Art Club; Paul Jacobs, National  
Thespians; Ralph Walter, H. Y.; Darrell Harding, Key Club; Ed Stofko, Junior Classical League.

Leaders in the world of action!

## *Aids to the Learning Process*

Mr. Wallace F Orlidge and Mr Charles R Colbert have charge of the Audio-Visual Aids Department Here all manner of visual-aid material is at hand to help the learning process.

These two teachers are in charge of all movie projectors, record machines, tape recorders, records, microscope projectors, opaque projectors, and overhead projectors Besides this, they have a library of over 1200 filmstrips, and they keep track of the 20 to 30 movies which are rented or donated every month

The Audio-Visual Aids Department also has photocopy equipment and mimeograph equipment for reproducing tests, etc

All manner of minor repairs are done here—from splicing films to putting new parts in movie projectors.

Mr Orlidge and Mr Colbert also sponsor a Projectionist Club of approximately 25 members The members learn how to operate the various equipment

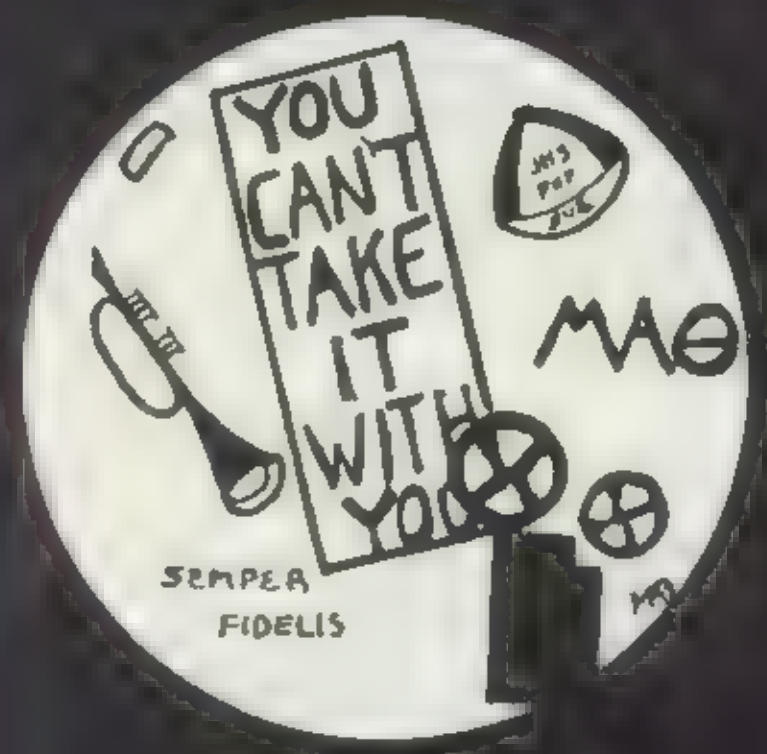

The Audio-Visual Aids Department is, in the words of Mr Orlidge, "the resource for learning aids."

Messrs. Charles Colbert and Wallace Orlidge check equipment

## Action Seekers of '66

Ever take a glimpse in room 231 during the fourth period? If so, one would probably see pens and typewriters in a constant non-stop race to meet with deadlines for the six issues of the school's paper, *The Centralizer*. It's motto, "A Paper of Ideas and Ideals" was carried on by the journalism class of 1966. In an unceasing search for news, the class developed their ideas to make for a newsworthy paper. Editorials and features told of high ideals at JHS.

*The Spectator* took time, thought, and energy. Here creative writing was introduced, and poetry was written and explained. Hard, diligent work has made the book you are now reading, a priceless treasure to each senior.

Producing the *Centralizer* and the yearbook kept these writers busy

## *Camera Bugs 'Round Every Corner*

Members of the Spectator Photography Staff could be found around every corner of the school with a camera close by, and the words, "Smile, please," on their lips. Mrs. Margaret Bowes is adviser to the group, and Jim Norcross student photography editor.

The staff worked hard at all types of assignments from running errands to carrying camera equipment with seemingly limitless energy. The main job of the staff is to assemble and alphabetically catalogue all the senior photographs. Besides this, the staff assisted Mr. John Hesselbein in taking pictures of clubs, group activities and classroom action.

The photography staff's helpful assistance proved invaluable when it came to arranging club pictures which was time-consuming and at times, "hectic." With the aid of these able camera bugs, who devoted a great deal of time and energy to their work, the production of our yearbook was made with more than a degree of success.

Norcross is really center of attention!!

## *De Vinci's Proteges*

Once again the Art Staff was on the move. Under the sponsorship of Mrs. Josephine Quigley, the Art Staff chose the color scheme and correct drawings to bring out the action in our high school yearbook. The division pages, sketches, and title pages are all products of the Art Staff. Each day, third period, in room 410, the Art Staff, otherwise known as the honors art class met to work on assigned projects.

Mary Ann Bubalo and Patricia Ream were co-editors. Other members included Jane Amann, David Baker, Debby Bantly, Mike Bastaja, Gayle Beigay, Lynn Boltz, Janice Burrell, Ron Callahan, Lester Crowder, Pat Fetcko, Russ Gibson, Joan Glacken, Guy Hildebrand, Paul Jacobs, Maureen Kinol, Dave Kazak, Linda Orledge, Mike Peskuric, Edward Pazun, Janice Rooney, Richard Sabo, Sharon Slagle, Kathy Thumbas, Darlin Van, and Bonnie Zaiac.

# *The Culture Carriers of JHS*

Students having talent in art have an opportunity, through Art Club, to gain added knowledge of their subject outside the classroom. Through the year, the students have participated in many activities. A river boat ride on the Monongahela River and a visit to the Scholastic Art Show in Pittsburgh was included in this year's activities. Many Art Club members attended the Fall Show of the Allied Artists and voted for the popular prize. They also had the opportunity of attending the motion picture, "The Agony and the Ecstasy." Students were able to get a bird's eye view of highlights in the life of Michaelangelo.

The Halloween Painting Contest gave the Art Club members a chance to exhibit their skill. For using originality combined with talent, the Art Club earned second place prize.

Mrs. Josephine Quigley, Art Club Adviser, showed film strips and films on famous paintings to encourage the students to do better work. The style of each great artist was studied.

In addition to their business meetings, an evening is set aside for the members to work on art displays and help with various projects. For a Christmas project, the art students made 200 tray favors for elderly men in Torrance Hospital.

The future artists of the Space Age

Officers—Sharon Stigel, Ken Babel, Guy Hildebrand, Pam Kolega

## Leadership and Honor

These two qualities head the list of qualifications necessary for a student to become a member of the National Honor Society. Election to this chapter is based upon service, scholarship, leadership, and character. Membership in this organization is the highest academic honor that can be bestowed upon any senior.

At the installation ceremony, which was held in the auditorium, the members, clad in black caps and gowns, marched from the back of the auditorium to the stage. Members and officers were introduced, and the club's purpose explained.

The Honor Society arranged an Honor Banquet, in the spring, which was sponsored by the Johnstown School Board for seniors who received certificate of honor awards.

Officers—David Demo,  
Gary Molchan, Jack Tomb,  
and Sandra Manners

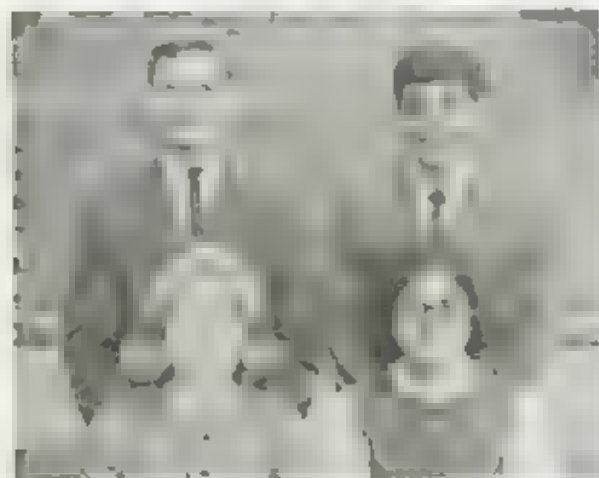

## *Governing Body on the Go!*

This year marked the beginning of the newly set up Student Council under the sponsorship of Mr Tony Carosella. A group of 15 representatives was chosen from the many representatives to act independently while each homeroom representative carried the news directly to the students.

Fudge sales, bake sales and the selling of sweatshirts were among the fund-raising projects this year. The Student Council awarded a scholarship to an outstanding student at the end of the year.

The Student Council created better student-teacher and student-student relationships

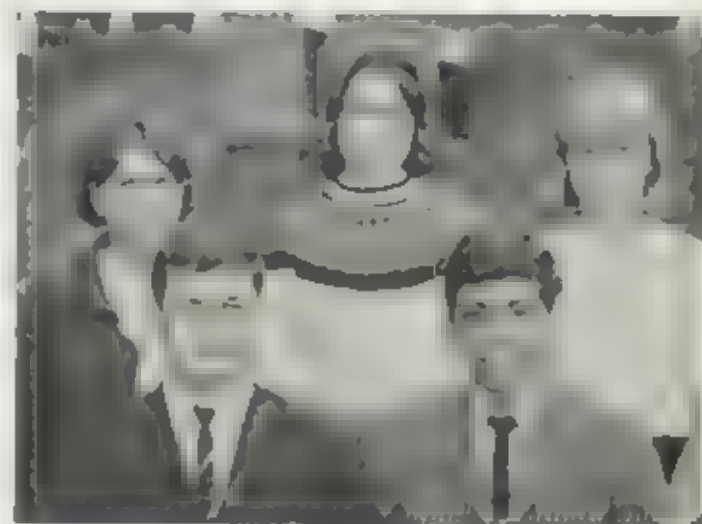

Officers—Martha Griffith, Deanna Chirillo,  
Charles Todorich, and Larry Ramirez

## *We Will Teach the Generations to Come*

*Officers—Tim McClain, Larry Ramirez,  
Barbara Altimore, Joanne Balencic,  
and Carol Wolf*

The Future Teachers of America organization had a most active and interesting agenda this year. A field trip to Penn State was planned to give the aspiring future teachers a look at college life. Johnstown High had become active along with Westmont, Richland, Ferndale, and Triangle Area in a Regional Conference at Westmont. A business meeting and social afterwards were planned for this affair. A joint project with Westmont was also planned. In this project, the JHS and Hilltop students volunteered to tutor elementary students in need of extra help with their schoolwork. Other activities which appeared on the FTA agenda were a banquet and a student-teaching day.

The officers of this year's club were: President, Tim McClain; Vice-President, Larry Ramirez; Secretary, Barbara Altimore, Historian, Joanne Balencic; Treasurer, Carol Wolf.

Mr. Don Cammarata was the club's sponsor.

# *America's Guarantee for Safer Highways*

Statistics have proven that those trained in a drivers education course are safer drivers and during the past year, JHS has produced several of these competent drivers

Two-periods-a-week students, who have chosen driver education as an elective, meet in room 117 to be trained under the guidance of Mr Frank Weaver or Mr Phillip Gettys

While participating in this class, one becomes engaged in not only classroom discussion, but is also given the opportunity to sit in the driver's seat of an automobile with the power of a deadly weapon in his hands. Each time this weapon becomes more and more like a tame lion, until, when at the completion of the course, a student can proudly display his license, knowing that he is now a more reliable guarantee for the continuing, growing safety of the nation's active highways.

## *"The Key to Our Community"*

This year's Key Club has really been a help to both our school and our community. The sponsor, Mr. Ralph Gillman and President, Darryl Harding have really led this club into action.

Starting from the day the cleaning of the trophy cases took place, the club sponsored various projects. Some of these were selling high school pens, lightbulbs, and peanut brittle. Other projects were collecting funds for various causes, having a safety drive in school, and helping pay for an intercom system in the boys' gym.

The Key Club is important in making good pupils into better citizens of tomorrow. The Key Club, for many boys, has been an important part of their school life.

Officers—Leonard Pastorek,  
Darrell Harding, Ken Woodruff,  
Jack Tomb. (Back row)  
Paul Jacobs, Charles Todorich  
John Felton, Randy Simmons  
and Bill Dairs

## *Where the Music Is*

The Johnstown High School Mixed Chorus, consisting of 115 members, is an example of action as well as teamwork and co-operation within the school.

The Chorus, under the direction of Mr. Carl Miller, performed its first concert at the First Evangelical United Brethren Church during the Christmas season.

A small group of outstanding members was organized as a traveling chorus. This ensemble performed at many social and religious functions outside of the school.

Chorus officers this year, Leonard Pastorek, president; Charles Todorich, vice-president, and Gail Campbell, secretary-treasurer, helped to lead the group in all its musical efforts.

The annual money-raising project was the sale of large chocolate candy bars by the members. The money raised from this project helped pay the expenses incurred when the group went to see a performance of the Swing-Out Musical at Indiana State College.

Officers—Leonard Pastorek,  
Gail Campbell, and Charles Todorich

## *Music Ringing Everywhere*

This year the Girls' Chorus, under the direction of Mr Carl Miller, proved to be a lively group. All these girls had one thing in common—a love of good music. Although many of the voices may not have met the requirements of the Metropolitan Opera, they came on strong with their enthusiasm.

Meeting only twice weekly there was no time to be idle. They practiced tirelessly, always striving for perfection. The chorus studied the classical, spiritual, and popular music of both modern and contemporary composers.

The reward for all the hours of hard work and rehearsal came when the girls made their appearance at the baccalaureate service.

We salute the best band in the land!

## *Musicians On the March*

At every football game, the silence at half-time was shattered when the words, "Presenting the 1965-66 Johnstown High School Trojan Marching Band" crackled over the loud speaker. A fanfare, a pause, and then began another half-time performance by our musically-inclined Trojans. Many fans were treated to the precision drills executed by the marching musicians. They also saw for the first time in history the performance of the "Trojanettes," the newest addition to the band.

The expert directing of Mr. William Tepper and Mr. Carl B. Miller has given JHS one of the finest bands in the state. Under their guidance, the more difficult drills became an "everyday affair" with the band members. Many hours have gone into the making of our band, and many hours have been devoted to entertainment at various functions, both scholastic and civic.

The '65-'66 Trojan Band has a long history of high standards set by tradition. The band members worked hard to polish and refine the many minute details involved in producing a top band. They are musicians on the march who represent the school, the community, and the people of Johnstown.

# *We Like It 'Cause It Swings*

One of the swingin'est organizations at JHS happens to be our school's Dance Band. The members of this group put their talent into practical use, and the end result is invariably a danceable, listenable melody in the contemporary style so popular everywhere.

"Softer, trumpets! A little more 'barry sax.' O.K. Take it from the edge!" Nine chances out of ten, Mr. Carl Miller said words similar to these over a thousand times during the rehearsals of the Dance Band. Under his direction, the musicians were guided to a better understanding of the "big band" sound.

Many of the music makers in the dance band want to go on and be music majors in college. The opportunity that the Dance Band affords them to broaden their knowledge of music is of tremendous value. However, the overall opinion of the members is expressed in one easy sentence—"We like it 'cause it swings!"

The JHS Dance Band

The Wind Ensemble

## *Keeping the Latin Bug Alive*

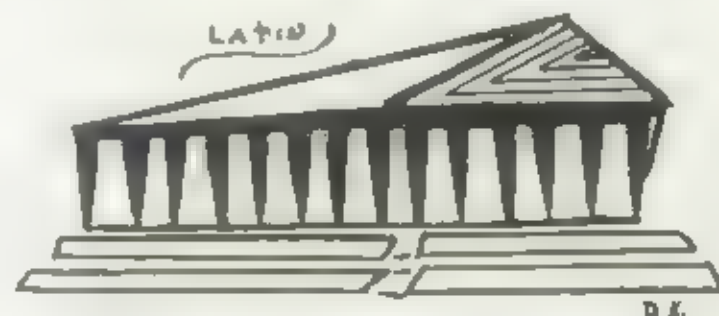

Johnstown High School's Junior Classical League is an organization that provides students with a more effective understanding of Latin and its contributions to world culture. The club also stimulates interest in the study of the Latin classics.

The Johnstown High Chapter of the Junior Classical League is affiliated with the national organization consisting of 1150 chapters and over 50,000 members. Students who had taken Latin, previously, as a language course, were invited to join the club.

This year the club participated in various projects and social affairs. Regularly scheduled meetings were held, all of which encouraged student appreciation of the Latin language.

Officers—Leonard Pastorek  
Janet Koval, Larry Verbano  
(Back) Ron Vickroy, Ed Stofko,  
and Richard Sandak.

## Happy Trojan Time

This cheer and many other cheers of victory for the Men of Troy were very well performed by the 120 members of the Girls' Pep Club this year.

With their sponsor, Mrs. Nancy Miller, and under the leadership of president, Pat Tomkowski, vice-president, Marty Griffith; secretary, Bunny Pudliner; and treasurer, Sue Snyder, the Pep Club really was an asset to JHS this year. The club held fudge and bake sales, took buses to the away football games, held a Big and Little Sister party, a senior picnic, and sponsored one of the most gala social affairs of the year, the Pep Club Formal.

The members of the Girls' Pep Club really displayed the great school spirit of all the students at JHS.

Officers—Marty Griffith,  
Pat Tomkowski, Alberta Pudliner,  
and Susan Snyder.

## *Craftsmen Show Action*

"Action" was the keynote in room 130 this past year. Mr. William L. Freidhoff taught the boys techniques of woodcraft, machine operation, and manual skills.

Furniture such as chests, desks, and nightstands were made. On numerous occasions, they were called upon to either construct or repair school furniture. Practical application of skills gave the boys a feeling of confidence and accomplishment. They also repaired broken furniture brought from their homes.

Besides shop, the boys also studied English, history, science, and math.

These boys will leave JHS as educated craftsmen.

## *Adventures In Homemaking*

This year in room 131, an all-girl class learned the basic fundamentals of the art of home-making. Under the guidance of Mrs. Helen M Dyna, the girls made dresses, blouses, and other wearing apparel during the course of the past year.

In addition to this, the students learned to knit, crochet, embroider, and to make various decorations for the home.

The girls whole-heartedly agree that this year has been a great one in learning new ideas and putting them to work.

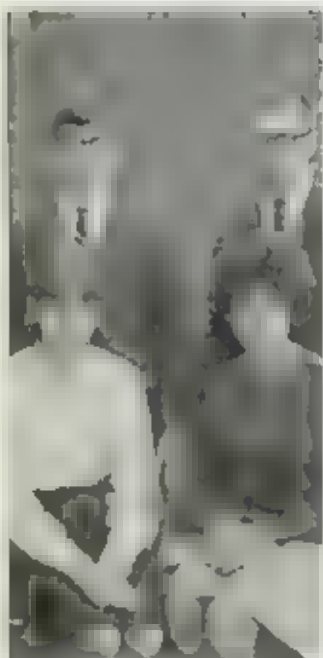

## *All of JHS is Their Stage*

To the National Thespians, JHS is one big stage. The talented members of this club were those who put on the class play, the Thanksgiving program, and many other interesting dramatic skits.

This year the Thespians really swung into action. They viewed plays at the Pittsburgh Playhouse, the Nixon Theatre, the University of Pittsburgh, and Indiana State College. The club also conducted a workshop to teach its members the finer points of acting, directing, and producing. Programs were also put on by the Thespians for charities and other clubs.

Students are elected to the club on a point basis, with a minimum of 10 points needed for membership. Any student taking dramatics is eligible to join.

This year the National Thespians truly proved that action prevails at JHS. Miss Carol James is adviser to the club.

Linda Bendick  
Debby Khuri,  
Robert Hunter  
and Paul Jacobs.

Class Play—Cast and Crew

Class Play

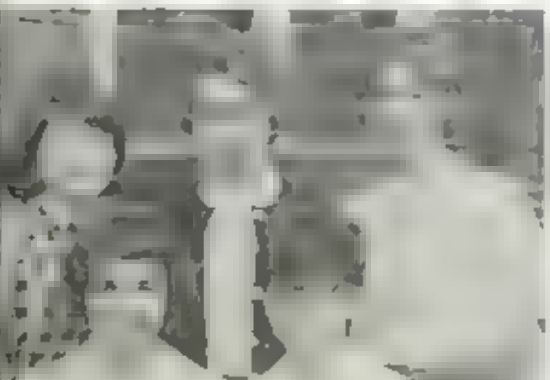

## *Y-Teens On the Go*

The JHS Senior Y-Teens had an interesting and active year under the leadership of their capable officers and their faculty adviser, Miss Laverne Bobby.

The group began the year with two annual events. The first was a candlelight initiation ceremony for the installation of their officers and the reception of new members. The other was the setting-up conference held at Roaring Run Scout Reservation.

This year the girls had a variety of activities. They helped the community through service projects and participated in YWCA functions. Their big event of the year was the Snowball Dance, a semi-formal affair open to the school.

Officers—Pam Kolega, Patti Cammarata,  
Karen Jordan, Maureen Kinol, and  
Karen Schneider

Officers—Balche Yee,  
Christine Westover,  
Mary Lou Mihalic,  
Debby Berkebils,  
and Pam Krupi.

## *"Action A-Plenty" for the Junior Y-Teens*

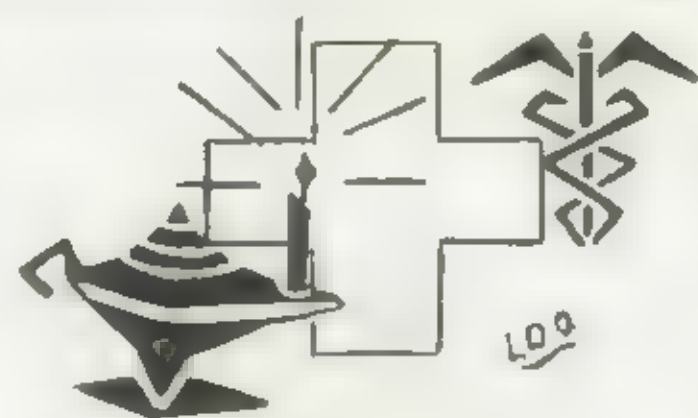

This past year has been another action filled year for JHS' Junior Y-Teens

In the way of activities, the group first attended the Setting-up Conference at Roaring Run. They then held a "Can Hop," and with the food collected, made Thanksgiving more enjoyable for needy families in Johnstown. They also participated in the Snowball Dance held last January by both the juniors and the seniors.

This organization is open to any Christian girl wishing to participate in Y-Teen action. Miss Laverne Bobby is the sponsor of this organization.

Officers—Gretchen Hilbrecht,  
Gayle Smith, Carol Gundlach,  
Debbie Del Signore, and  
Janice McCreary

## *Teens On the Move, Aiding the Community*

Para-Medical Careers' Club, under the supervision of Mrs. Beatrice Shaffer and Mrs. Jane Manners, is a popular organization among future doctors, nurses, physical therapists and students interested in helping others.

Para-Medical members and the community as volunteer workers at Lee and Raymond Hospitals. They also conduct fund drives for many charitable organizations. The two most important projects were the collection of materials during the Toys for Tots Drive and the help given to the unfortunate through the Cerebral Palsy Banquet.

However, all work and no recreation would make any club dull. Therefore, educational and profitable trips were planned during the year. These included one to the State Rehabilitation Center on Goucher Street and another to the Children's Hospital in Pittsburgh.

# Figures, Figures, and More Figures

Slide rules, set theory, pyramids all these terms are quite familiar to members of the Mu Alpha Theta.

The purpose of this club is to gain a broader knowledge of mathematics and develop a keener interest in the subject than time in the classroom can allow

Under the leadership of Jack Tomb, president, and Leo Zahurak, vice-president, the club took part in many events. Assisting in planning these activities were Alice Newmann, secretary, and Ronald Vickroy, treasurer. Advising the mathematicians was Miss Florence Warfel.

With the introduction of new members, the club was ready for the first money-making project, which was a sub sale.

After the money was raised, the club traveled to Seneca Valley High School in Harmony, Pennsylvania, for the Mu Alpha Theta Convention. During this time, professors from the University of Pittsburgh and a representative from NASA gave lectures. As a sidelight, a visit to the school's observatory was made.

Officers—Jack Tomb, Ron Vickroy  
Alice Newmann, and Leo Zahurak.

Jerry Cobaugh, Richard Murphy,  
Leonard Pastorek and Tim McClain

## *Trojans Are Tuff!*

This year at the football games those loyal chants of "Elevator," "Iron 'em out," and "nuts and bolts" echoed through the Point Stadium once more. We have the JHS Boys' Pep Club to thank for this contribution to the autumn sports schedule.

As winter drifted in, our "shouting" Men of Troy also brought pep and vigor to the basketball games and wrestling meets.

Heading the club this year were Jerry Cobaugh, president, Richard Murphy, vice-president; Tim McClain, secretary; and Len Pastorek, treasurer.

The Boys' Pep Club gave every evidence throughout the year that "Trojans are tuff!"

## *Ready, Willing, and Able to Serve*

The Projectionists' Club, whose members contributed both time and energy to their work, performed a worthwhile service for our school. All members who belong to the Projectionists' Club are licensed to operate 16 millimeter projectors and other motion picture equipment.

The club elected officers, and meetings were held after school at least once a month. The main purpose of the Projectionists' Club is to operate motion picture equipment for the members of the faculty or group gatherings. Because of their skill and interest in their work, the Projectionists have made their club one of service and reliability.

Here is the team that made learning fun with their visual aids.

## *Action A La Francais*

Officers—Rosemary Coyle, Mike Mosorjak,  
Ray Broad and Annette Rosko

Vive la France! This cry could come from only one club, Le Cercle Francais. For those of you who don't parlez-vous francais, we are talking about the French Club. This year's French Club, though one of the youngest clubs, was most active.

Cultural meetings, where the members saw films, enacted skits, and spoke mostly or entirely in French, enriched the student's understanding of France, French life, and French people, besides being entertaining.

An election was held at the beginning of the year and the following Frenchmen gained offices: President, Rosemary Coyle, Vice President, Mike Mosorjak, Secretary, Annette Rosko; and Treasurer, Ray Broad. Wendell Clark and Edward Zilch were elected as historians.

The French Club also boasted a newspaper called, *Un Petit Oiseau M'a Dit* or *A Little Bird Told Me*. The paper was published several times during the school year. Arlene Harris was editor, and she was assisted by staff members Karen Beeple, Mary Jo Bobaly, Rosemary Coyle, Susan Lutsenhizer, Janet Smith, and Edward Zilch.

The French Club's adviser is Miss Lelia Calderwood.

## Ready for the Countdown

The Science Club of JHS gives students an opportunity to activate their interest in science to a greater extent.

Activities and projects were numerous this year. First, meetings were held which included guest speakers from the community. Field trips were taken to Pittsburgh, WJAC-TV, and Pennsylvania Electric Company. A project, which the members had previously planned, was working with a ham radio outfit. Each year the members participate in the annual Science Fair, and this year Greater Johnstown played host to the State Science Fair.

The officers of 65-66 were President, Den McGough, Vice President, David DeFazio, Treasurer, Darrel Harding; and Secretary, Richard Oswald.

The members of the Science Club are "in the know." They were, are, and will be "where the action is."

Officers: Dennis McGough, David DeFazio, Darrell Harding and Richard Oswald.

Mr. Ralph Weigle was the club's sponsor.

## *Fun With Books in the Library Club*

Take a club of service and fun add peppy members, a set of enthusiastic officers, and you have the Library Club.

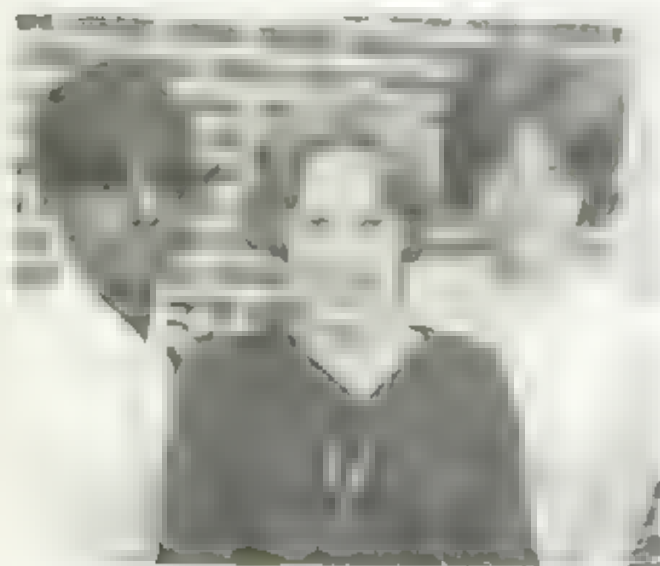

The following officers were elected at the beginning of the year President, Etta Daroczy; Vice-President, Barbara Lee, Secretary, Brenda Brandon, and Treasurer, Mattie Palmore

The club's main purpose was to help in running the library, whereby they performed an important service for JHS. Part of the orderliness of the library is due to the work of these girls.

This year the Library Club held initiations in the JHS gymnasium and these library aids had a gala evening.

The club was under the supervision of Mrs. Rachel Georg.

Officers—Brenda Brandon,  
Etta Daroczy and Barbara Lee.

# Mathematical Minds in Action

Would you like to see the industrial wizards of the future? Meet the JHS Engineers' Club. This club, under the sponsorship of Miss Louise Kunkle, introduces a student to engineering and helps to develop his interest in other phases of science.

This year the club held fudge sales, heard visiting speakers, took field trips to various industries, and participated in a club science project.

The Engineers' Club is a real credit to JHS. Not only does membership in this club develop a student's scientific interest, but also helps him to develop good citizenship. The club is a branch of the National Science Foundation and works in association with the Junior Engineering Technical Society (JETS). The Engineers' Club really spelled out action this year.

Officers—Doug Reed, Alex Dubnansky, Dion Freedman, Earl Goller and Joanne Balencic

Officers—Ralph Walter, Ronald Holmes,  
Robert Hedglin, Darrell Harding  
and Joe Blasic.

## *Character Creating Important*

The Hi-Y is an affiliate organization of the Y M C A. It was founded for the purpose of creating, maintaining, and extending throughout the home, school, and community, high standards of christian character. Each Hi-Y club is under the supervision of an adult adviser. The Hi-Y club of JHS is sponsored by Mr. Albert Spack. His job is to help members select goals for personal and group living.

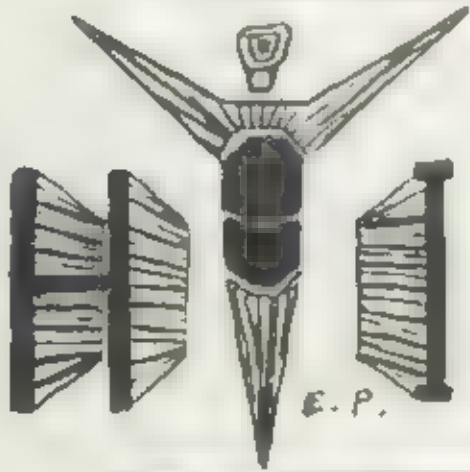

The Hi-Y club operates on the basis of a four plank platform. The four planks are: clean speech, clean sportsmanship, clean scholarship, and clean living.

## Service With A Smile

"Ticket, please" and "Right this way" is the polite lingo of the Ushers' Club. The Ushers' Club is made up of junior and senior girls under the supervision of Miss Mary Clark and Miss Betty Kunkle. Under their guidance, the girls are taught the right and wrong of good ushering. Being polite and good natured are two qualifications particularly stressed.

Throughout the school year the girls have ushered for the Chorus Concert, the Band Concert, the Senior Class Play, and for Commencement exercises. Also, the Ushers' Club has showed its civic-mindedness by ushering for the Broadway Play, *The Subject Was Roses*. In appreciation for a job well done each girl was given a monetary gift.

A parent-student banquet added the final touches to a school year of hard work and play.

Officers—Patsy Ritchey, Barbara Frederick, Barbara Irvin, and Sandy McGough

## Troymen Stand!

This year's Trojan football team ranked among the top teams in Greater Johnstown High School history. These men should stand up and take a bow

The team, who shared the All-West Conference Championship with McKeesport, finished with a 7-2 record

The Men of Troy opened with a 24-12 win over Redstone, but were then blanked by Uniontown. After New Kensington and Windber were defeated, we were downed by West Mifflin North.

Johnstown finished strong with four victories over McKeesport, Penn Hills, Altoona, and Har-Brack

An odd fact of the season showed the Troymen winning the toss and receiving the opening kickoff in all the games

Janice Burrell, Karen Belle, Natalie Krentz, Debbie Kessel jump for joy at bonfire before the game

## FIRST GAME—REDSTONE

Johnstown High School's 1965 football season opened with our Trojans defeating the Black Hawks of Redstone.

The first touchdown came when Bill Ramos smashed through the Redstone line. The conversion attempt was wide, making the score 6-0.

In the second quarter Joe McMillan ran 72 yards for a TD. Gary Knee's kick was wide. The Black Hawks scored and it was 12-6 at halftime.

In the third quarter Joe McMillan went over from two yards out for his second TD. Knee's kick was wide and the scoreboard showed 18-6.

A bad punt and pass interference set up Leroy Gunby's touchdown from the 5. Redstone scored again, and the game ended 24-12, a Trojan victory.

## WE BLEW NUMBER TWO

On the first foray on "foreign" soil, the Trojans suffered a 20-0 defeat. This was the first defeat of the season. Uniontown's attack proved too strong for our defense though many Trojans gave every ounce of fight in them. 13-0 was the score at half-time. With still no tally on the visitors' scoreboard at the end of the fourth quarter, the game became history—a loss, but more significant an incentive to go on.

## NEW KENSINGTON DEFEATED

The Trojans of Blackie Mihalic got off to a slow start against New Kensington and the halftime score was 0-0.

In the third quarter Joe McMillan took a double reverse and went 34 yards for a touchdown. Gary Knee kicked the extra point making the score 7-0.

A Kiepert-to-DiBartola pass netted the next touchdown. Knee again made the conversion to up the score to 14-0.

In the fourth quarter Joe McMillan took a pitchout and went over for the TD. Another kick by Knee boosted the score to 21-0.

With JHS on New Ken's 43, Dom Calderone passed to Chris Perry for the final TD. Knee missed the extra point and the game ended 27-0.

## JHS SPANKS WINDBER

The Trojans came up with their 8th straight victory over Windber in the 47th meeting between the two rival schools. An 18-7 score shows that it was a very close game. When the Ramblers broke through for their first touchdown and conversion, it made the score 7-0. However, that was to be the last we would hear from the scoring end of the Ramblers that evening.

Joe McMillan, Trojan speedster, scored double TD's for JHS, the first made midway in the second quarter, and number two was made with a minute remaining in the first half. At halftime, the Trojans prevailed with a 12-7 lead.

The final touchdown made by a Kiepert-to-DiBartola pass clinched the game for the Trojans with a final score of 18-7.

## A VIKING VICTORY

The Vikings of West Mifflin North defeated the Trojans 20-18.

After a scoreless first quarter Joe McMillan caught a Don Kiepert pass and ran for a 61 yard touchdown play. The conversion attempt was blocked.

A Viking TD and extra point changed the score to 7-6 at halftime.

In the third quarter Tony Gunby caught a 37-yard TD pass. The conversion was missed and JHS led 12-7.

In the fourth quarter Joe McMillan ran 33 yards for a TD to increase our lead 18-7.

With about 6 minutes left a Viking touchdown changed the score 18-13.

JHS was forced to punt and five plays later a TD for West Mifflin reversed the score 20-18. The game ended, a defeat for JHS.

*Let's go Team—Let's go Team—*

## TROJANS DOWN McKEESPORT

The Trojans, for the first time in four years, put the Tigers of McKeesport in a tank! The final score, 21-7, ended any doubt about the great Trojan offense. However, the defensive machine, headed by tackle, Bill Bachovchin and linebacker, Tony Gunby, allowed only 24 yards net gain for the rushing of the Tigers.

After McMillan and Gunby made yardage picked up from an interception, Cy Andrews slid through the right guard for the first TD. It was a Kiepert to McMillan pass for the conversion. The Trojans scored again in a hurry. After a 56-yard march downfield, Kiepert hit Gunby for the number 2 TD. Then a Kiepert to Perry pass made it 14-0. In the third quarter another pass to Andrews gave the Trojans a 3 touchdown lead while Samko converted for a 21-0 lead.

The Tigers just missed a shutout. With 8:14 remaining in the final quarter, a Tiger scored the only TD of the game for the Tigers. With conversion the Tigers were defeated 21-7.

## NO. 7—VICTORY

The Trojans defeated Penn Hills with a score of 25-13.

In the first quarter Joe McMillan ran through right tackle and went over for a TD. A Kiepert-to-DiBartola pass accounted for the extra point. The score was 7-0.

In the second quarter, Penn Hills drove 41 yards for a touchdown. Then JHS took even and Kiepert hit DiBartola on the goal line. The score was 13-6 at halftime.

In the third quarter DiBartola caught Kiepert's pass and ran 37 yards for a TD.

In the fourth quarter Joe McMillan ran for the final JHS touchdown. The score was 25-6.

Penn Hills scored again but the game ended 25-13, a JHS victory.

## A GREAT VICTORY

The Trojans ran through a fumbling foe from Altoona to defeat them 25-13. The Trojans romped through the Lions early. Don Calderone punted, and the ball was fielded by Altoona. Joe McMillan caught a fumble and scored at 1:43 of the game.

Both teams fought hard, but the half came with the score 6-0. The Trojans controlled the ball by an Altoona fumble. Don Kiepert hit Walt Swearinger a 21-yard pass to the Altoona 3. Joe Samko put the ball on the 1 for Kiepert's touchdown.

Joe McMillan hit another touchdown and another after Altoona's first score. Ray Kist kicked McMillan's extra point.

Altoona struck again, but the game was over—25-13 Johnstown.

## HAR-BRACK SMASHED

The Trojans smashed Har-Brack with a 40-18 victory score.

In the first quarter, Don Kiepert burst across the line for the first TD, and Ray Kist completed the conversion. McMillan scored the next TD for JHS. Then Har-Brack made their first touchdown.

In the second quarter, McMillan again scored and Kist made the extra point. Late in the second, Har-Brack crossed the goal to make the halftime score 20-12.

In the third quarter, both McMillan and Tony Gunby scored, making it 33-12.

In the fourth, Joe DiBartola made the final Trojan TD, and Kist again made the conversion. Har-Brack also scored again, making the final score 40-18—Trojans.

## *Ready for Action - JHS Coaching Staff*

Behind the JHS Trojan team we have a competent and experienced staff. Heading the staff is Coach Francis "Blackie" Mihalic. Assisting Coach Mihalic are Coaches George Kocerka, Robert Zakula, Paul Slobozien, Willard Fox, Milan Svitchan, and trainer Edward "Doc" Stofko. The athletic director is Mr. Clark Shaffer.

Another important group of young men, well appreciated, are the managers. The team managers perform various tasks which are of great help and comfort to the team and coaches alike.

To the team, coaches, and managers, Camp Reynolds was where the action began. Many hours were spent in hard work and training on the part of all to bring the Men of Troy to "where the action is."

Our tip-top managers

## *Victory All the Way:*

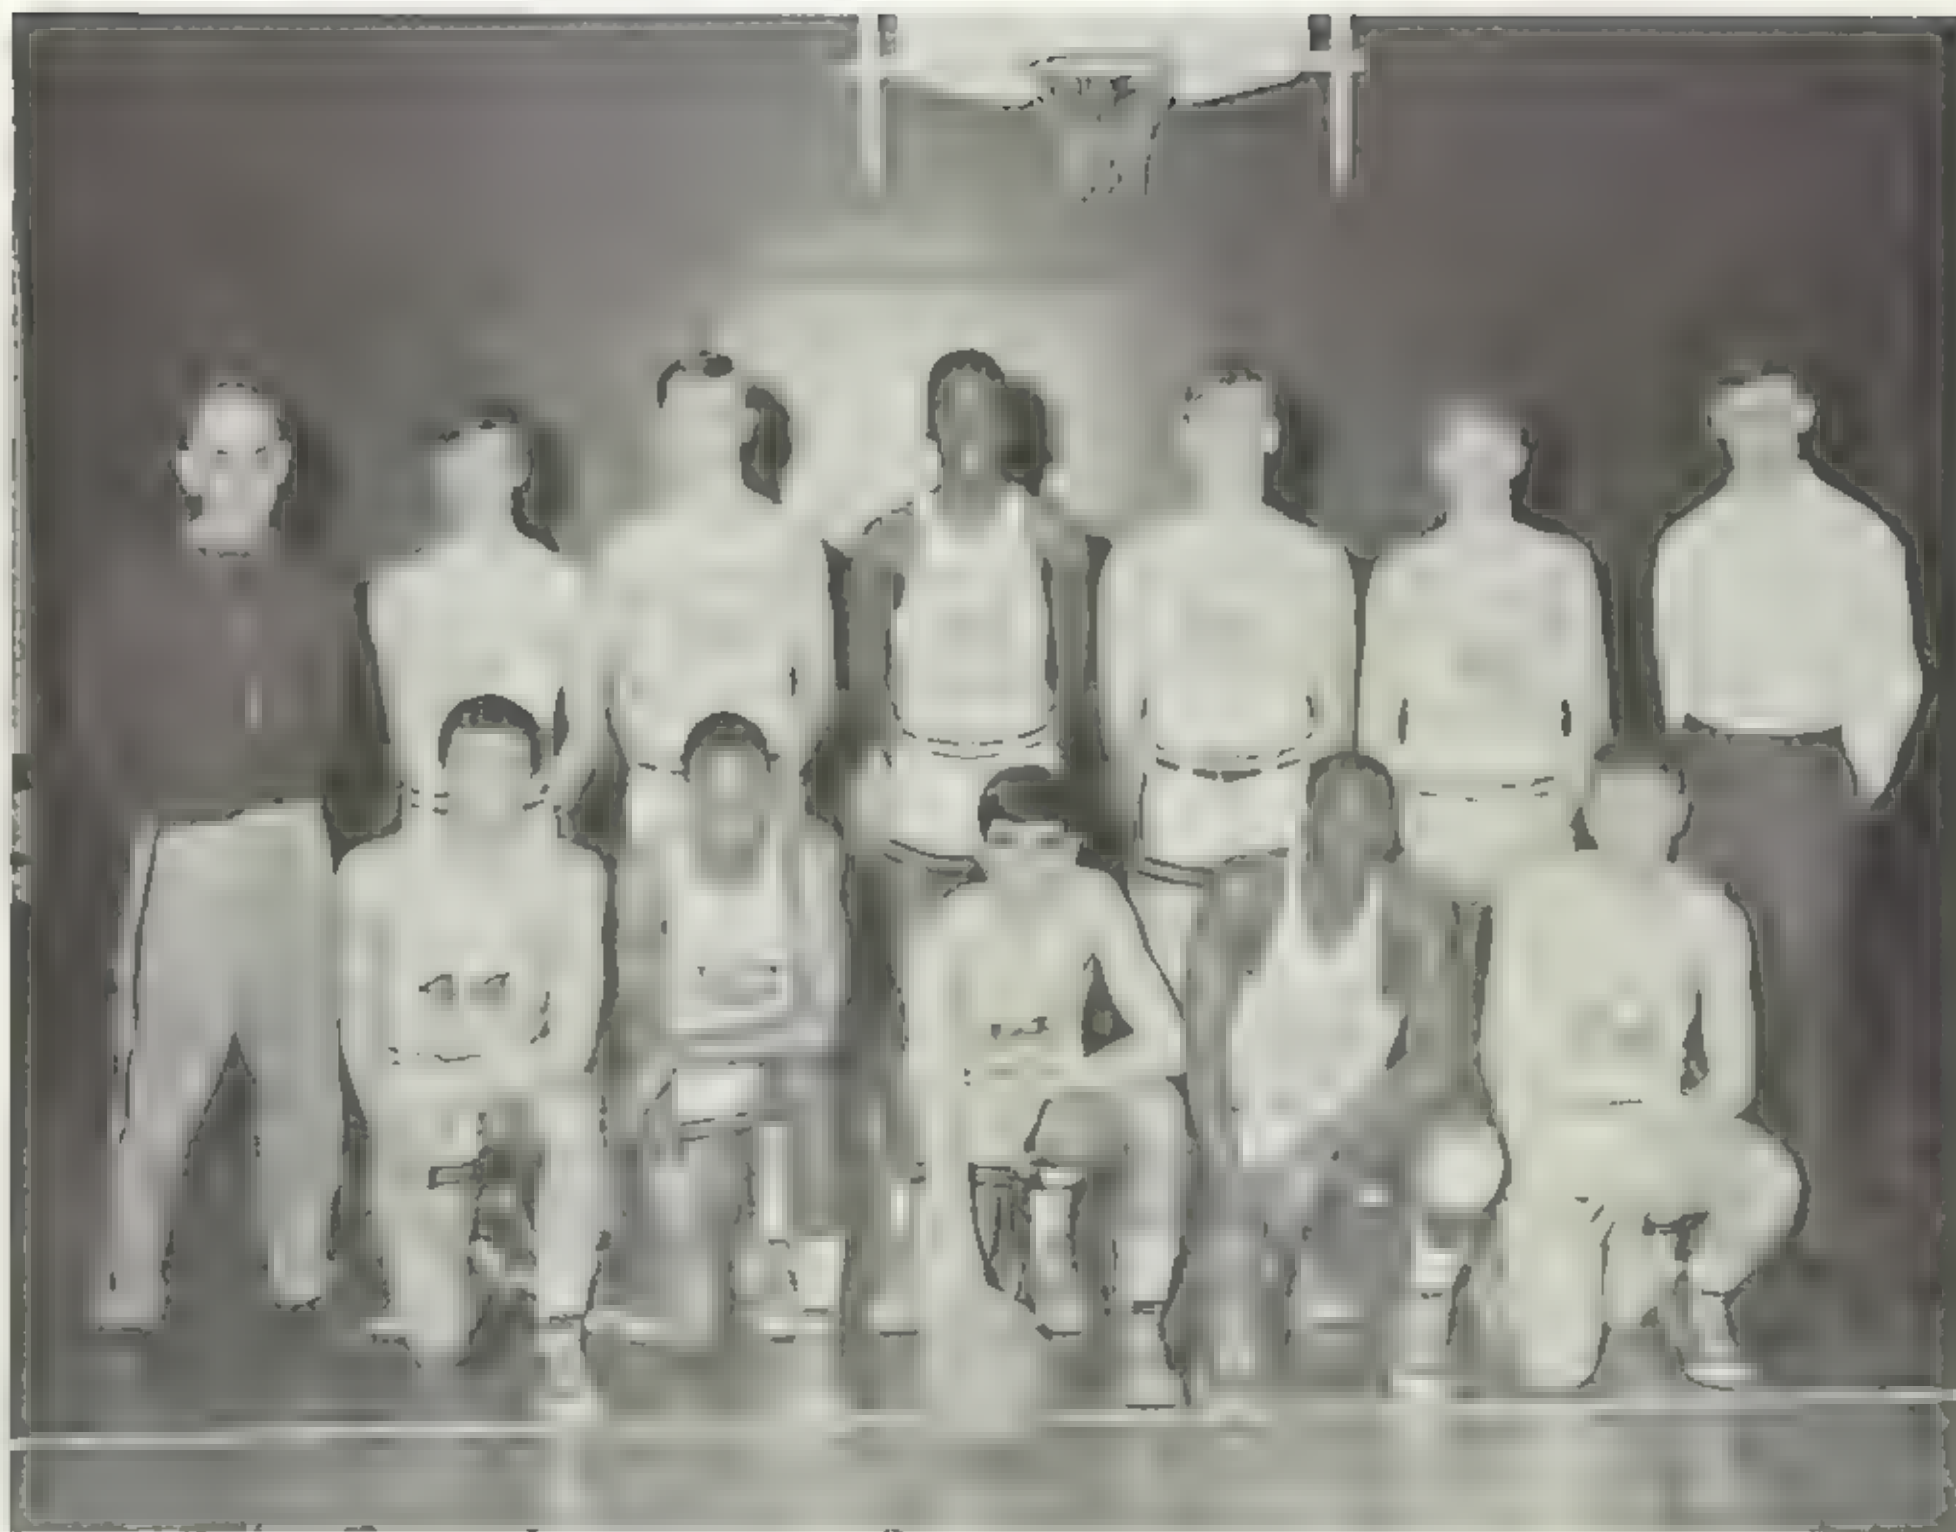

The title "Terrific Trojans" not only applies to the male gender of the school. This year JHS possessed the best all-around cheerleaders in the area. Besides leading the cheers at the football and basketball games, wrestling meets, and pep rallies, these snappy gals also participated in the Cheerleading Contest held annually at the Johnstown War Memorial. "Troymen Stand," with a plea for victory, was 100% successful as we once again took first place.

Advisers, Miss Lois Miller and Miss Carolyn Tilley, worked just as hard as our cheerleaders to bring honor to JHS. The school is proud to claim these peppy girls as her own.

Front row (left to right) Janice Burrell, Natalie Krentz, Georgia Stegura, Katy Tumbus, Karen Belle, Debbie Kessel. Back row (left to right) Linda Bray, Linda Clark, Barbara LaBuda, Gayle Smith, Connie Romano.

Front row (left to right): Joe DiBartola, Jim Jeffers, Dom Calderone, Tony Gunby, Ron Howie  
 Back Row (left to right): Coach Paul Abele, Dennis Alberter, Joe Kaharick, Joe Samuels  
 Bruce Hrivnak, Gary Clossin, and Ray Babik  
 Dave Clark, Chris Mahla, and Ralph Walter were missing when the picture was taken

## *Hardwood Heroes of Sixty-Six*

A fast break! A hook shot! Another two points for the Trojans! They create havoc on the basketball court. This year's team, under the skill of Coach Paul Abele, gained ability and co-ordination in the art of maneuvering the basketball around their opponents and through the netted hoop for score-making points.

In the active sport of basketball, the pass, pivot, and shooting ability of each player is important, and with the deftness applied to the sport by men like Jim Jeffers, Ron Howie, Joe DiBartola, and Bruce Hrivnak, we had a collection of Hardwood Heroes that made us proud.

Here are the boys who brought home the bacon more than once.

## *Rough and Ready Boys*

This year's wrestling squad was strong, rough, and ready to meet all challengers. The wrestling squad is made up of boys having different weights and skills and wrestling is one of the most skillful sports. Since there is one man against the other, he must rely only on his own strength and quickness. He doesn't have a team of other boys to help him. The wrestler must be quick thinking. He must constantly try to out guess his opponent and come out on top. Each boy wrestles with someone in his own weight class. This gives each boy a better chance to win. These boys train hard and fight hard. They know that it is up to them alone to defeat their opponent. It takes skill, strength, and most of all, courage to be a good wrestler. This year's team had all three of these requirements.

Mr. Milan Svitchan is wrestling coach.

## *Diamond-Studded Action*

"Action" rounded the bases this year for JHS's baseball team. Coach "Blackie" Mihalic managed these hard-hitting sluggers through the hit-filled year.

The starting line-up, as well as the bench, was composed of boys ready and willing to get out on the field and "play ball."

This past year was another powerful year for the tri-county league. Each team member learned the meaning of those two action words—"play ball!"

## *Catch Them, If You Can*

Yes, catch them if you can; but it's not easy, for this is the speedy JHS track team. This year's track team ran away with their share of the Trojan honors. The track meets were the scene of a great deal of action, and the effort made by our track team was indeed unsurpassable.

Coach Robert Zakula and the assistant coach, Mr. Paul Slobozien, kept these boys in top condition all year. Cochran Junior High School saw these boys five days a week during track season. Here was the training ground for our speedsters.

Another speedy group of track stars is the Cross-Country team. These boys were under the supervision of coach William Smith. Roxbury field was the training place for these runners.

# Student Life

DEBBIE CHUBA

YOU ARE THERE—1976  
by Debbie Chuba

You are now in the year 1976. Ten years have passed since your graduation from JHS. Let's see what your fellow members of the class of '66 are doing now. Remember, you are there!

Hitting it big on Broadway is Miss JANICE CALABRESE, who successfully starred in '66's

class play, "You Can't Take It With You." A budding Thespian since high school, Janice has come a long way indeed. Also in the dramatic field are RAY ANDREWS and TERRY FITZPATRICK, the famous producing-directing team who are considered to be Broadway's brightest pair. Busily typing in the administration office is EMILY CHAPMAN, secretary to the principal, whose skill at the keyboard during her school years at JHS never ceased to amaze her friends. In New York's famous Guggenheim Museum can be seen the works of JOAN GLACKEN, member of the class of '66, whose art ability was illustrated by her excellent work in the '66 Spectator. Judging the "Voice of Democracy" contest is that well-respected member of our community, RALPH WALTER, who participated and won fourth place in the contest during his junior year at JHS. GAIL CAMPBELL has just been appointed head of the President's Council on Youth Fitness. DARA WINSTON recently received the award, "Teacher of the Year." She is principal at her old alma mater, Village Street School. PAT TOMKOWSKI, holder of a master's degree in nursing, is chief medical adviser to the new presidential candidate, '66's own CHARLES TODORICH. As we walk along Franklin Street, we view the new ultra-modern complex of community buildings constructed by DION FREEDMAN, president of the Freedman Amalgamated Engineering Corporation. We see DENNIS BROSS, English teacher at JHS, seated behind a massive desk lecturing his students on the importance of punctuating and capitalizing sentences correctly. As we turn on the TV set, the Jacobs-Hunter Report is about to start. The star broadcasters of the program are PAUL JACOBS and BOB HUNTER, two former outstanding dramatic students at JHS and now chief broadcasters for NBC. The New York Times has JEANNIE POPOVICH as a star reporter and PAT CAMMARATA as an executive secretary. JIM NAJJAR, a successful commercial photographer, is doing a series of photos for Life Magazine. SANDY MANNERS is now conductor of the Johnstown Symphony Orchestra. She is the first woman to hold this position. Doing biological research at the Mayo Clinic is DIANE HOLTZMAN, a winner of many awards in biology. Have you looked at Vogue lately? All of the excellent illustrations are the work of MARY ANN BUBALO, chief art editor. The National Football League has

just announced its awards for the past season. Among those honored was Ed Stofko, who was chosen as "Player of the Year." Busily preparing quantities of hydrogen sulfide in his lab is the "mad scientist" of the class of '66, Mr. JERRY COBAUGH. Working for the CIA as two female 007's are '66's own KAREN BEEGLE and AMBER RHINE, who were known to their friends as the "Girls From U.N.C.L.E." Down in the gym, DENNIS KANUCK is working out some lazy juniors, while working on some strategy for an upcoming football game—he's the Trojan coach, you know. "Wanted — Driving instructor with a lot of patience." This ad is the property of LINDA DOULON, who is still trying to drive a standard. We see RAY BROAD and BURG PENROD trying to find a suitable sermon for their Sunday services. The "Tonight" show orchestra has BOB WOLF as the lead guitarist. One of the employees at the Rehabilitation Center is LINDA BOWMAN, who is the nation's finest physical therapist. WALT DROSJAK is director of the JHS marching band with RANDY SIGG as his right-hand man. If you're in New York this year, be sure to visit the Radio City Music Hall. The excellent choral selections are the work of ANITA LAPORTA and JANET KOVAL, the new choral directors. And don't worry if you get blisters on your feet while waiting. Anita and Janet are registered nurses, too! Newly appointed gymnastics head at Slippery Rock State College is DEBBIE KESSEL, former top gym student and cheerleader at JHS. Miss PAT TYBURSKI is an executive secretary to WILLIAM STRONG, president of Bethlehem Steel Company. SUE SNYDER, an airline hostess, has met many celebrities and VIP's. One of these was TOM SVIRSKO, head football coach at Notre Dame. Employed as interpreters at the Argentine Embassy are ROSIE SESTRICH and MARTY KRENTZ, the star Spanish students of '66. Making headway in the WAVES is SYLVIA HARTZ, a newly commissioned First Lieutenant. The "Tours of America" Company is proud to have LINDA TRAIL, number 1 road guide, in its service. TOM LOBB, a designer of automobiles, has just brought out a new model to top them all. The new head of the English department at Indiana State College is JANET BALA, and also at Indiana is DEANNA CHIRILLO, head of the science department. ANTOINETTE DUBINSKY, an elementary teacher, has her hair done every week at BARB GUIZIO's Hair Salon. Typ-

ing her way to the top is DEBBIE KANUCH, an instructor at Cambria Rowe. ROGER WITKOSKY, of the Witkosky Printing Company, is printing the '76 Spectator. Working in the FBI Office in Washington, D.C., is HARRIET CHRISTENER, voted "typist of the year" by the class of '66. A vegetable tycoon, BOB RUTLEDGE, says he got into the business so that he can have carrot sticks everyday for lunch. JIM GREGORCHICK will appear again on TV tonight with one of his famous oral editorials. Going anywhere by jet? Two of the finest stewardesses to serve you are SHARON BOYER and LYNNE BENDICK of United Airlines. TERRY CRIST has become a teacher—third grade to be exact! MIKE ASSIA now has his own computer company and is a real success just like we "figured." Addressing an assembly program at JHS is PAUL SAVERING, who has just returned from his missionary program in Afghanistan. A new member of the Pennsylvania Bar Assn. is JOANNE BALENCIC, new legal representative for the City of Johnstown. This year's primary election lists JACK GOLDENBERG as a candidate for Congressman from the twenty-second Congressional District. Have you seen the latest commercials for headache remedies? The star of these new commercials is SANDY LEHMAN, who was a specialist in producing headaches during her school years at JHS. LOIS SACERINA is secretary to the new U.S. Attorney General, ALBERT PUDLINER. When you read the billing at Carnegie Hall, be sure to look for the name of JUDY FOREMAN, who is appearing as featured soloist. The Language Department at JHS has employed LARRY RAMIREZ and STEVE BORECKY as teachers of Spanish and Latin respectively. In the scientific field is BOB WYATT, IBM instructor at Penn State. One of '66's finest musicians,

RICKY OSWALD, is playing with a world-famous group. Busy in the medical field are JEAN HOSTETLER as a lab technician and MARGARET HOMAN as a supervisor of nursing. Two of Johnstown's finest elementary teachers are JANET SMITH and MARGARET BUCKSHAW. RICH GERBER, now a famous jewelry manufacturer, says he owes all his fame to his high school days when he made MARY ANN BEARER (now a famous jewelry model) so much wooden jewelry. The new head nurse at Johns Hopkins Hospital is JUNE KOVALCHICK, who has had much success in her nursing career. MARY AGNES RIZZO, a private secretary, still hasn't been on time for anything. This year's cheer-leading contest has among its judges KATY TUMBAS and GEORGIA STEGURA, who were captain and co-captain of the JHS winning squad in their senior year here. The owner of the House of Crookston, DENNY CROOKSTON, has created another terrific hairdo for the fashion-conscious woman. GEORGE MARTINEC now directs the mixed chorus at JHS. The annual "cooking school" for Penelec is being conducted this year by SYLVIA SHONEK, head home economist for the company. This year's recipient of the Toni Award is DEBBY KHURI. The award is given annually for excellence in a Broadway performance. JANICE ROONEY has just received a double-honor—her painting won first prize at a recent art show and she received yet another gold medal for figure skating. RICK FOLTA is still riding around in his tuff MG. Chef Boy-Ar-Dee has just appointed JIM PAOLILLO as chief food taster. Doing the decorating for some of Hollywood's most beautiful homes is MARTY GRIFFITH, whose skill at interior decoration wins her many yearly awards. Teaching at one of California's most exclusive private schools is JANICE MCCREARY. Planning the next space flight for the United

States is ALEX DUBNANSKY, head of NASA. GRETCHEN HILBRECHT and JULIANN KOHAN are employed as head nurses at two of the nation's most outstanding hospitals. The new head of the vocational department at JHS is BERNIE TAVALSKY. ROBIN FRUM and WENDY HERRON are still going steady. BONNIE MITCHELL and ARLENE HARRIS are teaching math and French, respectively. The engineering profession has among its biggest names those of JACK TOMB and GARY MOLCHAN, who have been very successful as presidents of their separate construction firms. Planning the "Caravan of Stars" programs for the Johnstown area is CATHY ANDERSON, who made regular visits to the program during her high school years. The JHS chapter of the Y-teens has as its adviser PAM KOLEGA, who was president of the organization in her senior year at JHS. ALAN CONSTABLE still wastes \$1.25 for what he calls a haircut. Among the nation's top commercial artists is MAUREEN KINOL, who majored in art at Indiana State College. KAREN JORDAN has just been made head of the Business Department at JHS. One of '66's most distinguished alumni, DAVID DEMO, is a professor at Notre Dame. JOYCE KING, a busy housewife, still insists on playing the clarinet—much to everyone's dismay. The New York Philharmonic concert tonight will include KEN BABEL on the drums. ERNIE PRICE is already halfway to tying Rip van Winkle's record. Among those athletes honored by the Associated Press was DOM KURTZ, a member of the Green Bay Packers. KATRINE GEHA is organizing a tutoring program similar to the one she participated in during her senior year at JHS. Among other '66 alumni teaching at JHS are RON VICKROY in physics and JERRY CAUSER in history. GARY KNEE, an elbow

doctor, and LARRY VERBANO, a general practitioner, are attending the AMA convention in Pittsburgh. The Community Concert Association of Johnstown has BARB SIDOR appearing tonight as guest violinist. Revlon's Beauty Salon in New York City is now under the direction of DEBBIE CAYUELA, who has many trophies for her award-winning hairstyles. The government has employed RICHARD KUZMYAK as a civil engineer. MARIE PFEIL is a professor of Spanish at the University of Pittsburgh. The master at working geometry problems, JEFF STERNER, can still remember when he couldn't even work one! The Boston Celtics of the National Basketball Association have just signed RAY BABIK, former Trojan star, to a long-term contract. "Hold that Windber Bus." This is the familiar saying of TERRY WEAVER, who said these words clear back in high school days. Poor RUSS GIBSON! Is he still trying to write an investigative theme? Who is that girl walking over there by the auditorium risers? Must be PHYLLIS MOORE, who always tried to reach the top step in her high school days. Perhaps today she'll reach it. Good luck, Phyllis! After being praised so much in high school for his excellence in the subject of P.O.D., EARL GOLLER has finally decided to teach it! Oomph! Ouch! Aaagh! Who's making these noises? Is it the caped crusader and the boy wonder? Oh, it's poor frustrated KAREN SCHNEIDER who's still trying to reach the peak of that certain "mountain." The University of Pittsburgh is proud to announce that it has selected DON KIEPERT as new head football coach. RUTH DUMEYER, a band director, has just been chosen to go to Spain to direct a band there. Anyone on Broadway need a maid? One person who doesn't need to ask this question is VINNY SAKONY, whose roles as maids have gone down in history. In fact, she's starting in one right now! Busy as a private secretary in New York is BUNNY DROPKO. It is reported that the world-renowned physicist, RICHARD MIRILOVICH, is going back to JHS to visit the first physics lab he ever worked in. Variety reports that NATALIE KRENTZ, the famous singer, will release a new album soon. LENNY PASTOREK, the great politician, is off to address another convention. The new head nurse at Walter Reed Hospital in Washington is CAROL GUNDLACH. The Rehabilitation Center has hired CHERYL MASER as chief psychologist.

Bethlehem Steel Company has two of '66's finest secretarial graduates—ROSE ANN JORDAN and KAREN BODENCHATZ. Among nurses working at Mercy Hospital are JUDY McDEVITT, HELEN SHARRETS, and BUNNY PUDLINER. All three are graduates of Mercy's School of Nursing. The most recent scientist to receive his doctorate is RAY STEFANIK, scientific wizard of the class of '66. A new picture duplicating company has been set up in Johnstown. The owner is BARB FREDERICK, who feels sympathy for those who are going through what she also went through in high school—collecting so many pictures of friends that she didn't have enough of her own to go around. Some of the highest paid nurses in the country right now are ANNETTE ROSKO, BUNNY HAGAN, and PHILLIS DANIEL — all '66 graduates. A new driving school has been set up in Johnstown with RON HOWIE as head instructor. Two new holders of masters degrees in mathematics are WENDY DAVIS and MARILYN GILL. The Johnstown Tribune-Democrat now has BOB HALE in charge of printing. The head of a new private school, DARLENE STEFANIK, has just appointed JOE PILJAY as a new instructor. Two nurses working for the Public Health Service in Washington are MAUREEN NANNA and DIANE SOBECKY. The new judge at the Cambria County Junior Miss Pageant is DEBBIE HAMER, who captured the runnerup spot in the contest during her senior year at JHS. The Cambria Public Library has announced that its new administrator is JAYNE RUMMEL, formerly head librarian there. American Airlines has hired JACK FOREMAN as a new pilot. Did you like your look into the futures of the class of '66? Remember you were there!

MARY K. WAYNIK

#### TO MY PARENTS

by Mary Kay Waynik '66

You've done without so I might have,  
You've labored long and hard,  
You've given me the kind of life,  
All barriers you have barred.

Not only those material things,  
Have I received from you,  
But also certain principles,  
To keep me straight and true.

You've always brightened up my days,  
And kept me from feeling blue,  
Each night I say a little prayer,  
And thank my God for you.

#### AUTUMN'S SIGNATURE

by Judith Leighty '66

The crisp wind blows  
Across the earth,  
Like the crackle of popcorn,  
Over a sputtering hearth.  
An odor of smoke,  
From burning leaves  
Lingers and mingles,  
Among the trees.  
Gone is the summer,  
'Til another year,  
Blustery signs of Winter  
Are drawing near.

JUDITH LEIGHTY

## SO VERY HIGH

by Linda Weaver '66

I sat one night and watched a star  
It seemed so near and yet so far.  
I had a feeling deep inside  
That He with me would now abide

I cannot tell you how I felt,  
As on the grass I humbly knelt  
And thanked the Lord that in the sky  
He placed a star so very high.

## FEBRUARY 14

by Linda Weaver '66

Today Cupid is shining bright,  
Shooting arrows left and right.  
He never, never wastes a chance,  
To fill the world with true romance  
Red valentines that are so frilly,  
To lots of people seem "downright silly!"  
But, you see, many have really found,  
That love does make the world go 'round

And now to all of you we say,  
"A very happy St. Valentine's Day."

## CLASSROOM ANTICS

by Linda Weaver '66

We sit on the edge of our seats and wait,  
It seems to be such a terrible fate,  
Just to sit and sit and wonder if  
You'll be able to walk,  
You have gotten so stiff!!

Then all of a sudden you feel like singing.  
You see, it is over!  
The bell is ringing!!!

LINDA WEAVER

## FOR YOU AND ME

by Linda Weaver

I sit here now and wonder why,  
God made the earth and sea and sky.  
I wonder why He made the grass,  
And leaves that rustle when I pass.  
And why the birds sit all day long,  
Filling the air with their cheery song.  
The sun that shines, so warm and bright,  
The moon and stars that give their light  
The rain that falls so soft and clean,  
The rivers, the brooks, the lakes and streams.  
But as I ponder, I finally see,  
God made the world for you and me!

SUSAN KEATING

### MY SPECTATOR

By Susan Keating

Can one small picture mean so much, after  
graduation day,

That twenty years from now—or more  
I'll pick it up and say,

"My darling child this likeness here,  
of one who was so young,

Is the portrait of the boy I met,  
When life had just begun."

For little did he realize when he signed,

"Remember me,"

That these words I would cherish, and so precious  
they would be.

And now that we've been married,

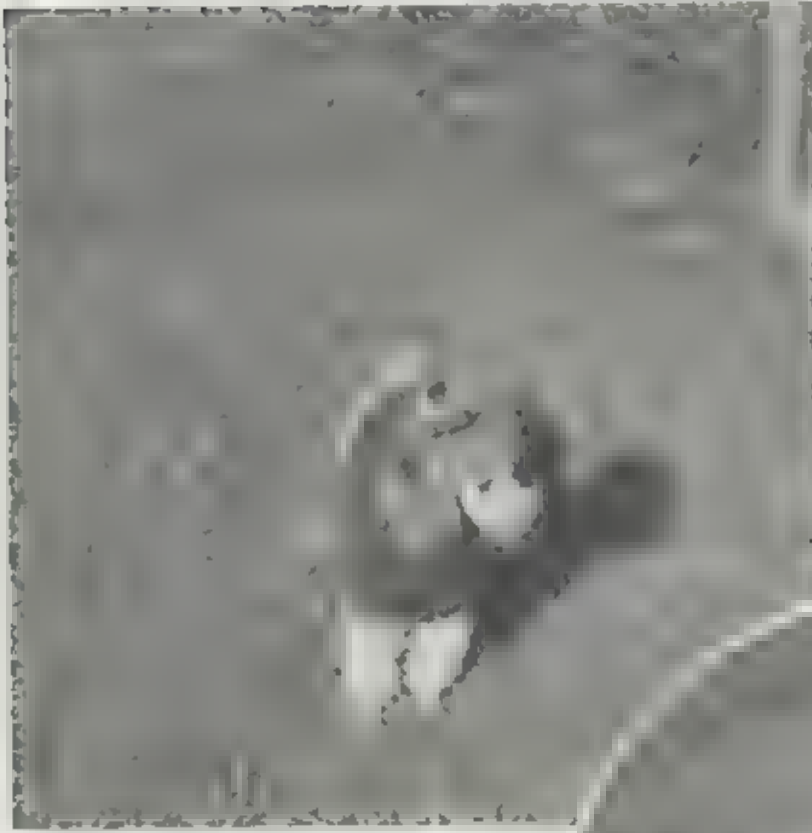

Blessed with life's great joys and gifts,  
His picture brings back memories;  
we have often talked of this.

The football games, the prom, and such great  
Times we've had,

Are among my thoughts and souvenirs,

With this picture of your Dad.

Monique  
Michele III

Mary Kay Waynik  
with one of her  
loves—her  
French poodle!!

### MONIQUE

by Mary Kay Waynik '66

She's very young,  
But yet so gray,  
She's not too tall,  
And, oh, how gay!  
She's always cheerful,  
Never sad,  
A little fearful,  
For that I'm glad.  
She speaks, although  
Not a word does she utter,  
A wag of her tail,  
Makes all hearts flutter.  
To me she is,  
The most unique;  
The name  
of my poodle?—Monique!

## REMEMBER THAT YEAR?

by Debbie Chuba

Remember when bobby sox were all the rage?  
Today they belong to the prehistoric age.  
Fluffy dresses and petticoats, too,  
Today they would turn a girl's face blue.

Remember when boys wore Hawaiian shirts,  
And girls paraded in half-length skirts,  
Madras, madras, belongs to today,  
All of the others are gone away.

Remember the days of the hula hoop,  
And all the gatherings with the saddle-shoe group,  
Remember when "slinky" ran down the stairs,  
And monsters gave us some terrible scares.

Remember when Elvis came on the scene,  
With swiveling hips and unearthly screams.  
Remember the day of the English invasion,  
When four mop-topped limeys took over the nation.

Remember the record that made such a hit,  
Mrs. Brown and her daughter were the subjects of it,  
Remember the Rolling Stones, the Beach Boys, the Toys,  
And their wild wooly records that resounded with noise.

Remember the TV shows we all loved to view,  
"Peyton Place," "Shindig," and "Hullabaloo,"  
Remember Napoleon, Illya, and James Bond, too  
Their hair-raising escapades we enjoyed through and through.

Remember the commercials we all learned to know,  
Harvey's good thing still has some way to go,  
Remember Mr. Clean and the AJAX white knight,  
And all of the times when they turned black to white.

Remember the days of this past great year,  
The days that brought a laugh, the days that brought a tear.  
Remember everything that is mentioned here,  
Remember this, class of '66, year after year.

## HORN

by James Fox

Oh, instrument of eons,  
Of Joshua, destroyer of walls,  
Of Gabriel and Roland,  
Whose aged metal, tarnished by the scythe of time,  
Lies battered and dented,  
Prostrated before me,  
Sing out.  
Cry your loudest.  
Tell once again of the pious ones,  
Of the lowly ones,  
Of the millenium of insanity,  
Which dawned only yesterday,  
And grew, unchecked,  
Until, like a storm, it broke,  
Ranning down upon us in its fury,  
Washing away conscience and brotherhood,  
And leaving soul-less frames.  
Aye, and each frame unique in its apathy,  
But similar in malignance.  
Oh horn,  
Tell again of the legions,  
Whose soldiers knew you as watchman,  
Whose bugler caused you to cry out,  
To sing of victory,  
To wail of defeat and death.  
Oh, damned horn,  
Shriek your warning,  
Let all who would listen, hear you,  
And take to heart your message.  
In your brazen notes,  
A lesson dwells.  
Aye, and we must discern it.  
Speak, then,  
Not in anger, but in hope.

JAMES FOX

JO ANN SISKKA

## MY GRANDFATHER

by Jo Ann Siska '66

As I walk through the lonely  
Hall of memories,  
I find an untouched bed  
Where you once rested.  
I find dishes covered with dust  
Where you once ate.  
As I run for your comfort  
And smile,  
I find only your empty chair,  
Staring back at me.  
In the rooms where I found  
Your laughter,  
Only a shivering wind echos through.

## LONELINESS

by Jo Ann Siska

Loneliness is a cold and bitter wind,  
Blowing from an unknown land,  
Where love has never been.  
His arm twists and turns,  
In every soul whom this world  
has forgotten.  
Loneliness is a darkness.  
Clutching life in his ancient hand,  
Scratching and scorning  
The hearts of those whom time  
has forgotten.  
Loneliness is a beggar,  
Thriving on others' sorrows,  
Laughing when others cry,  
Living when others do not.  
Loneliness is wickedness.

## NOT ENOUGH TIME

by Rosemary Coyle

A lifetime's much too short a time,  
To know this world, its youth, its prime,  
To do the things that must be done,  
To know that earth and man are one  
Too short a time for tears and fun,  
For weeping willows, smiling sun,  
For sunsets deep, with golden hues,  
For silent stars and frosty dews.  
And so I try each spring, each fall,  
To see this world, to see it all,  
The whistling wind, a bird that sings,  
God, give me time to know these things

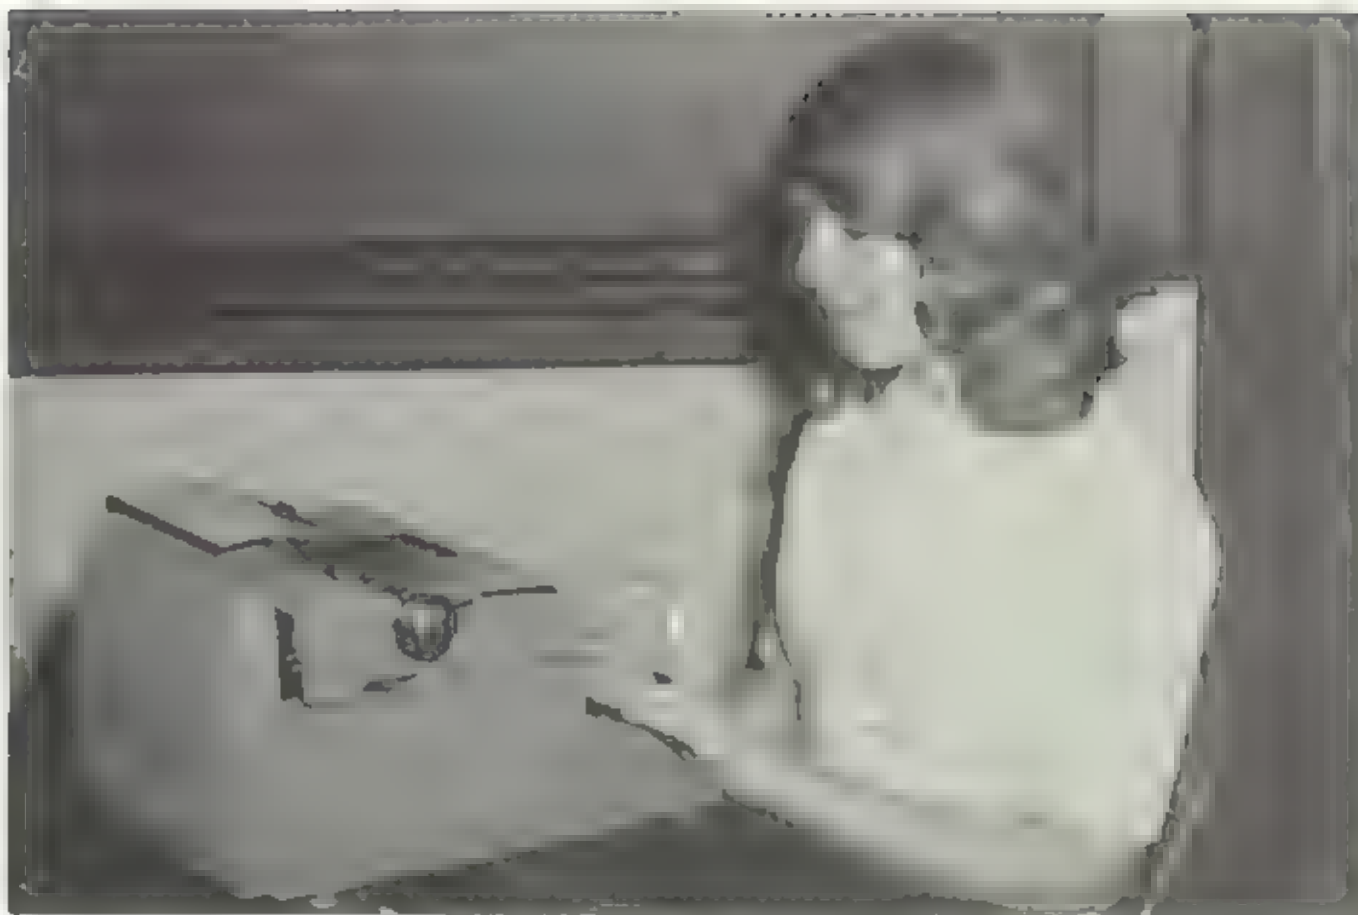

ROSEMARY COYLE

## JUST ONE LITTLE STAR

by Rosemary Coyle

A heavenly host of stars shone in the sky,  
But there was one little star that caught my eye.  
The brilliant galaxy around it shone,  
But that one little star, it stood all alone.  
I felt sad for that small star, so high in the sky,  
Wondering, for I, too, have felt lonely and shy  
And I made a small wish, and I hope it comes true,  
That the small star finds someone, as I have found you.

Mary Jane Churney types her poetry.

### BUILD ME A WALL

by Mary Jane Churney

Not against the cold, wind, or sleet build me a wall,  
Nor against the nocturnal darkness or pounding rain,  
Or against the crystalline silence of the night,  
Or the sudden, unrestrained call of the soul crying out against  
Unrelenting pain.  
Build me a wall and fortify it against Despair,  
Build it with Courage, Truth, and Justice,  
Before it is too late.  
Build with open heart and loving care,  
To forever shut out,  
Prejudice and hate!

### AVARICE

by Mary Jane Churney

Avarice, a greedy grasping hand,  
Clutches at our throats and tears us down.  
Men who covet money, fame, or land,  
Are those who in time will be called a clown.  
Material possessions are not worth their price,  
When we are judged on that Last Day,  
Where a life well led is more than enough to suffice,  
And those who are greedy and those who are jealous will be made to pay

## THE MAJESTY OF AUTUMN

by Mary Jane Churney

### RAIN

by Mary Jane Churney

How soft and gentle is the rain,  
Tapping against my window pane.  
She brings to me a note of cheer,  
Her sound most welcome, her sight most dear,  
Each drop falls from Heaven like a giant tear.  
Some say that lost souls are crying,  
And that is why the wind is sighing.  
To me the wind is vying,  
For the right to give life to verdant plants near dying,  
To bathe the world of all its grime,  
To cover the earth like a rolling mist each time.

Her royal majesty, Autumn,  
Imperially commands her subjects, the leaves,  
To provide a procession of color,  
For all to see.  
Her handmaiden, the Wind,  
Whistles her song,  
With a crescendo of sound o'er all the land  
Whispering, roaring, rendering her tune,  
With unabating energy,  
She travels on.  
Autumn has arrived,  
Clothed in regal beauty,  
The Queen of the Seasons,  
Commands all the forces of Nature!

### THE HAND OF GOD

by Mary Jane Churney

I see the hand of God  
in the face of a rose, glistening and blushing,  
whose sweet perfume caresses the night air.  
shaping the soul of an unborn child,  
as yet undefiled and untouched by the world.  
in the color of the most obscure pebble on  
a congested shore, so delicately carved as a precious jewel.  
in the seared countenance of an aged man telling  
the story of Life, all wise and knowing.  
in the butterfly's delicate wings,  
shimmering in the sunlight,  
like the winking of an evening star.  
in everything that is Life,  
that is fine and good,  
dark and bright.

Debbie Chuba and Jo Ann Siska have fun writing letter from JHS!

By Jo Ann Siska

June 10, 1966

Dear Class of '66

As your high school, I am writing this letter to thank you for all the memories that you have brought me over these past two years. These years have passed much too swiftly for me, but the memories will remain forever. I have watched many classes go in and out of my doors, and I daresay the Class of '66 can hold their own.

I can remember the first day you came here. You were strangers to me and almost everyone around you that September, 1964.

One of the first events that took place was the Girls' Pep Club try-outs. BECKY SIMMONS had to write the alphabet backwards on the blackboard, and DARA WINSTON had to walk around the room like a dog. CAROL WOLF and NANCY WILT had to do some pretty funny things, too.

Before the JHS-McKeesport football game, a bonfire was held at Roxbury Park. I can still see CAROL PENTZ, dressed as a football player at the park.

Another memorable event was the Language Banquet held in December in my cafeteria. It was really fun watching RAY BROAD, WENDELL CLARK, MIKE CHRIST, PAUL JACOBS, and NICK ROSKOS doing an act as French can-can dancers.

During basketball season I watched the Trojans defeat Bishop McCort in both encounters. MAUREEN NANNA yelled quite loud at these games.

During the year many episodes took place in my classrooms and halls. In chemistry lab, ALAN HOMAN broke quite a lot of dishes, because they weren't Pyrex and he tried using them over a Bunsen burner. KATHY MIKULA and EVA SMITH also hit record highs in breaking chemistry lab equipment.

I can remember how 428 was usually the last homeroom dismissed because PAM SHOEMAKER was still outside the door talking to ROSE ANN SUNSERI and BARB WERTZ after the bell had already rung. And PAUL SINGEL or JOHN SHIELDS was still walking around the room!

When the band traveled to New York City to perform at the World's Fair, I was a very proud school. Many members, including LINDA WEAVER, LARRY NESMITH, KAREN SCHNEIDER, and VAUGHN STUFFT stood on downtown street corners selling tags on Tag Day to finance their trip. I recall hearing incidents that occurred in New York City such as the story

about LARRY FAUST and RANDY SIGG who got lost in Macy's.

Well, your junior year ended and summer vacation began. Many of you put your time to good use. WANDA WRIGHT worked as a teacher's and in Project Headstart. JACK FOREMAN was a counselor at Camp Reynolds. LINDA ALTEMUS, DONNA BOOZEL, and JANE EDWARDS worked at Memorial Hospital.

In September, 1965, you entered my halls once more, this time as seniors. This year you could give the juniors wrong directions and tell them that the audion was a part of the auditorium.

During football season the Trojans won many victories. But I always wondered why RON FELIX was never at any games.

Can you remember the first appearance of the JHS majorettes at the Redstone game? SYLVIA SHONER and CAROL THOMAS, the captains, led the girls across the field in their new blue and white uniforms.

Before the JHS - Altoona football game (which we won) a pep rally was held in Central Park. Signs, which were made to promote school spirit, were put up on store windows around Central Park. It was a very windy evening and LINDA ORLIDGE and KATHY SENUTA nearly froze while putting up the signs.

In November, a Can Hop, sponsored by both Pep Clubs, was held. Admission was a can of food and a donation of a quarter for needy families for Thanksgiving. Those who attended participated in a few games before the dance. I remember watching LINDA KRANACS and BRYAN KNEPPER trying to eat a donut which was dangling in the middle of a string.

On December 28, the Girls' Pep Club formal, "Frosty Frolic," was held. I can still see some of the couples dancing. Among them are BARB MITNIX with DENNIS RADNOTI and DEBBIE HUGHS with ED KOHAN.

When our cheerleaders won the 22nd Annual Cheerleading Contest, I was walking a 100 feet tall. The Pep Clubs formed a giant black J and yelled the winning cheer, "Troy-men Stand."

I will never forget the first day of mid-term exams. It was also the day they decided to cut down the trees behind the school for

the new highway. Woe is me! Down with our beautiful tree!

For many years to come I will hear the voices of students from the Class of '66. I will hear the voices of PHYLLIS MOORE, DAVE CLOSSIN, RICH KUZMYAK, LINDA BOWMAN, and DENNIS KANUCK as they sang in the mixed chorus: another voice I will remember is that of PATTY GEORGE in health class. I will hear the voice of HELEN SHARRETS as she yelled cheers at the games and the voice of JANET SMITH as she screamed, when she ran through a stop light while in the drivers' training car.

For many years to come I will see the faces of students from the Class of '66. A gang usually gathered in front of BOB SEFCHICK's locker each morning. DIANE SOBECKY and PEGGY PASERBA were present and sometimes WES ALTMAN joined the group.

The fine group of boys who printed *The Centralizer* like DENNIS DADEY, BILL HOOVER, CHARLES MAMULA, and GARY PAVLOSKY will always remain in my thoughts along with RON LECHAK, ANDY PREBEHALLA, and RICH SPANKO. I will never forget how BOB KRALL made skis and how JIM DADEY once set the type for the entire school newspaper.

In the future I predict great success for many graduates of the Class of '66. GAY WAGNER, LARRY ALBERTER, GREG TAYLOR, MARY CALABOYIAS, JANE WOMER, RON KASPRZYK and MARY ALICE LEES—all will be great successes. MIKE DROSJACK, JUNE KOVALCHIK, TIM GUYER, LINDA SHERMAN, BOB NAGYVATHY, PAT GAGAN, and JOHN HADDLE will also be high on the ladder of success.

Tonight, as you march down the War Memorial aisles, in your caps and gowns, I will be watching you and praying that each of you finds the success for which you are destined.

The world is waiting for you, Class of '66, with a challenge I am hoping you can meet.

Yours very truly,

## MY SENIOR YEAR

by Arlene Seese and Linda Weaver

It was \_\_\_\_\_, 19\_\_\_\_, when I first entered Johnstown High School as a senior. There on the \_\_\_\_\_ floor stood \_\_\_\_\_ and \_\_\_\_\_ holding hands near the lockers beside room \_\_\_\_\_. Standing in front of 422 was Mr. \_\_\_\_\_ and Miss \_\_\_\_\_ obviously enjoying a discussion of the summer's events. Along the way to my home-room (\_\_\_\_\_), I saw a lot of my old friends such as \_\_\_\_\_.

\_\_\_\_\_, and \_\_\_\_\_ eagerly waiting for the day to begin. My first class in the morning was \_\_\_\_\_ and \_\_\_\_\_ was the teacher. The next thing I knew it was the \_\_\_\_\_ (no.) lunch period and \_\_\_\_\_ had become my lunch companion. Before the end of the day, I realized that \_\_\_\_\_ was going to be my best subject and \_\_\_\_\_ my most difficult one. As usual I stopped at \_\_\_\_\_ after school for a Coke and \_\_\_\_\_. Upon reaching home, I immediately called \_\_\_\_\_ to talk over the first day's events.

The following days brought about the start of that wonderful sport, football. I went to \_\_\_\_\_ (no.) of the games and my favorite was Johnstown vs. \_\_\_\_\_ where the final score was \_\_\_\_\_ to \_\_\_\_\_ in favor of \_\_\_\_\_. At these games our wonderful Marching Trojans performed for us all. I especially liked their version of \_\_\_\_\_ where our majorettes added their talent. The cheerleaders and the pep clubs filled the Point with cheers of \_\_\_\_\_ and \_\_\_\_\_ that always seemed to spur our boys on. Autumn just wouldn't be the same without our \_\_\_\_\_ football season.

Also in the fall was the premier of \_\_\_\_\_ which soon came to be my favorite TV program. \_\_\_\_\_ starred in this series, but I also especially liked the acting of \_\_\_\_\_. If I were asked to describe this program in one word, it would be \_\_\_\_\_.

On November \_\_\_\_\_, 1965, the Johnstown War Memorial was the sight of the Annual Cheerleading Contest. Our great gals brought

us another victory with their cheer, "Proudly Hail the Trojan Call." The entire evening proved to be

This year, as in every other year, The Centralizer really brought out all the news around JHS. The ..... issue was the one I liked best because .....

....., and ..... were featured. There was also an article on ..... which I found quite interesting

In conjunction with the excitement of other school activities, I remember well those great basketball games where ..... proved to be the hero of them all. Of all the games, I liked JHS vs ..... best because the score was ..... to .....

December proved to be an outstanding month for all kinds of action and entertainment. On December 11, our Dramatics Department put on an excellent showing of .....

....., the senior class play. My favorite performers were

..... and ..... Later in the month, just prior to Christmas vacation, the Student Council sponsored a Dress-up Day for the students of our school ..... seemed to be the best-dressed boy and ..... seemed to be the best-dressed girl. In one word Dress-up Day could be summarized as

Christmas vacation brought on a wide array of anticipation and joy. On Christmas Eve I went out with ..... to ..... and had a wonderful time. The next morning ..... was the first one up at ..... o'clock. After opening all of my presents I decided I liked these best: my ..... from ..... my ..... and ..... from ..... and my ..... from ..... I got ..... things alike. For dinner that day we ate at ..... and had ..... It was a very ..... meal. Also

over vacation I visited ..... and .....

..... who I hadn't seen for awhile. To top things off, there were also many other parties and events which took up 98% of all my spare time before starting back to school. Then too came New Year's Eve which proved to be ..... when I went to ..... with ..... It was quite evident that I enjoyed myself because it was ..... o'clock when I finally got home

"Frosty Frolic" was the theme of the ..... Pep Club Formal. It was really ..... my date for the evening, looked terrific in ..... The corsage was with the beautiful colors of ..... and ..... After the dance we went to ..... (I didn't get home until ..... o'clock.) That was one evening I know I shall never forget.

January 1966 started off with a bang when midterms were announced! I got ..... grades on most of my tests, but my best grade was the ..... I got on my ..... test, and my worst grade was the ..... I got on my ..... test. With half of the year then being over, I discovered ..... was my easiest teacher and ..... my hardest one. I also picked my favorite subject as being .....

The next sport season following basketball was wrestling. I especially liked the action of ..... who did an exceptional job of pinning ..... (no) of his opponents. The JHS vs ..... match was the most exciting of all. Secretly I picked ..... as a future world's champion wrestler.

This year I was a member of ..... (no.) clubs. The one I enjoyed most was .....

..... was the sponsor, and the president was ..... The major event of the year was the .....

Valentine's Day was quite ..... at JHS. It seemed rather funny to see ..... and ..... walking down the halls together. I guess Cupid really did shoot them with one of his arrows though, because when ..... tried to hurry them to classes they were still in a daze.

My favorite book in 1966 was ..... by ..... I liked it because it was ..... and

told me about this ..... book

On April 1, 1966, our terrific Trojanettes proved to be ..... at the Annual Majorette Contest. Although this was the first year for the gals, their courage was outstanding. I was behind them all the way.

Then came Easter. My Easter vacation was ..... because I spent a lot of time with ..... The weather over vacation was ..... When I returned to the halls of good old JHS everything was exactly as it was before I left.

During the year, amid all of my other extracurricular activities, I tried to take in as many movies as was possible. Of them all, I liked ..... best. It starred

..... and ..... The movie that I positively disliked above all others was ..... The acting of ..... was definitely not up to par.

Along with the fun and enjoyment of school goes the down-to-earth seriousness of study-

ing. Report cards played an important part here. Following the tallying of the fifth six week's grades, my class standing was reported as ..... As for the honor roll, I was on it ..... (no.) times. All in all my grades for my senior year were .....

When the Awards Assembly was announced I knew that my senior year was fast coming to a close. ....

..... really hit the jackpot this year when (he or she) received the award for .....

I was also quite proud when ..

....., one of my best friends, walked on stage to receive the award for .....

..... This was one of the .. assemblies of the year.

May brought our formal school year to a close. This was the month for finals, the senior assembly, and the prom. My date for the prom was .....

The theme was ....., the colors were ..... and ....., and the flower was .....

My last year of school came to a sad end on June ....., 1966. After commencement services were completed I realized that it was now my turn to stand up and be counted as an individual in the race of life. I would now have to take part, an active part, in the affairs of my country, state, and local community. It was now time, as a newly graduated student of Johnstown High School, to set my sights high to honor my family, my friends, and of course my Alma Mater

*Oh, Boy, What a  
Night of A-c-t-i-o-n!*

*Miss JHS of 1966 should have:*

**M**ARTY GRIFFITH'S SINCERITY

**G**AIL CAMPBELL'S PERSONALITY

**S**HARON BOYER'S BEAUTIFUL EYES

**R**OSANNE SUNSERI'S HAIR

**J**OANNE BALENCIC'S GRADES

**B**ARBARA SIDOR'S BEAUTIFUL VOICE

**D**EBBIE HAMER'S FLATTERING FIGURE

**J**A NICE CALABRESE'S WIT

**A**NTOINETTE DUBLINSKY'S SMILE

**C**AROL THOMAS'S GRACFULNESS

**L**YNN BOLTZ'S STYLISHNESS

**P**AT TOMKOWSKI'S LEADERSHIP

**E**MILY CHAPMAN'S FRIENDLINESS

**P**ATTY HUFMAN'S HEART

**T**ERRY CRIST'S CHARM

**P**AM KOLEGA'S PEP

**S**HERRY MURPHY'S FLAWLESS COMPLEXION

*Mr. JHS of 1966 should have:*

**M**IKE ASSIA'S CURLY HAIR

**J**ERRY CAUSER'S IMPRESSIVE HEIGHT

**J**ACK TOMB'S TERRIFIC PERSONALITY

**J**OE SAMKO'S MIGHTY MUSCLES

**R**ON HOWIE'S FRIENDLINESS

**S**TRONG'S BOYISH CHARM

**T**'S ATHLETIC ABILITY

**D**'S GOOD GRADES

**W**YATT'S STRENGTH

**N**'S SMILE

**H**UNTER'S I.Q.

**I**S BROSS'S BLUE EYES

**G**REGORCHIK'S TASTE IN CLOTHING

**H**'S VIM AND VIGOR

ARLENE SEESE

### LOOKING BACKWARD IN 1976

by Arlene Seese '66

Great school, so mighty and tall,  
It's been so long since I walked down this hall,  
Years have passed since I stepped through your doors,  
Childhood has gone, like the sea from its shores.  
Mine are the memories of days long past,  
When life was exciting and moved along fast.  
I remember each room and every brown seat,  
Yes, and the shuffling of very small feet,  
Those were the days when joy did abound,  
On pert little faces, some square, some round,  
No, I'll never forget as I descend these stairs,  
How school was a fun time, free from all cares.

Bonfire  
before  
the  
big  
game!
